In 1999, S&A founder Porter Stansberry launched *Stansberry's Investment Advisory*, our flagship newsletter. Today, hundreds of thousands of investors in 120 countries read Porter's work each month.

In these pages, Porter has been predicting the most promising emerging trends and the most influential economic forces affecting the market – with uncanny accuracy – for the past 13 years.

From the Internet boom and bust... to the real estate boom... to the collapse of natural gas prices... to the current oil boom in the U.S., these and other accurate predictions have led *Stansberry's Investment Advisory* subscribers to incredible gains.

Just three months later, both enterprises had to be bailed out by the government.

One reader who took Porter's recommendation, Steve C., wrote, "I bagged a quick \$20,000... one helluva call."

In fact, Porter's work on Fannie Mae and Freddie Mac was considered so accurate, financial reporter Alan Abelson wrote about his analysis in the popular "Up and Down Wall Street" column in *Barron's* – calling it "remarkably prescient... Nothing, as far as we can see, has happened to contradict his dire prophesy."

Subscriber Robert R. recently wrote us to say, "I knew that our country was headed in a very wrong direction, I did not know how to minimize the personal impact to
