

Vemma Helps with Autism!

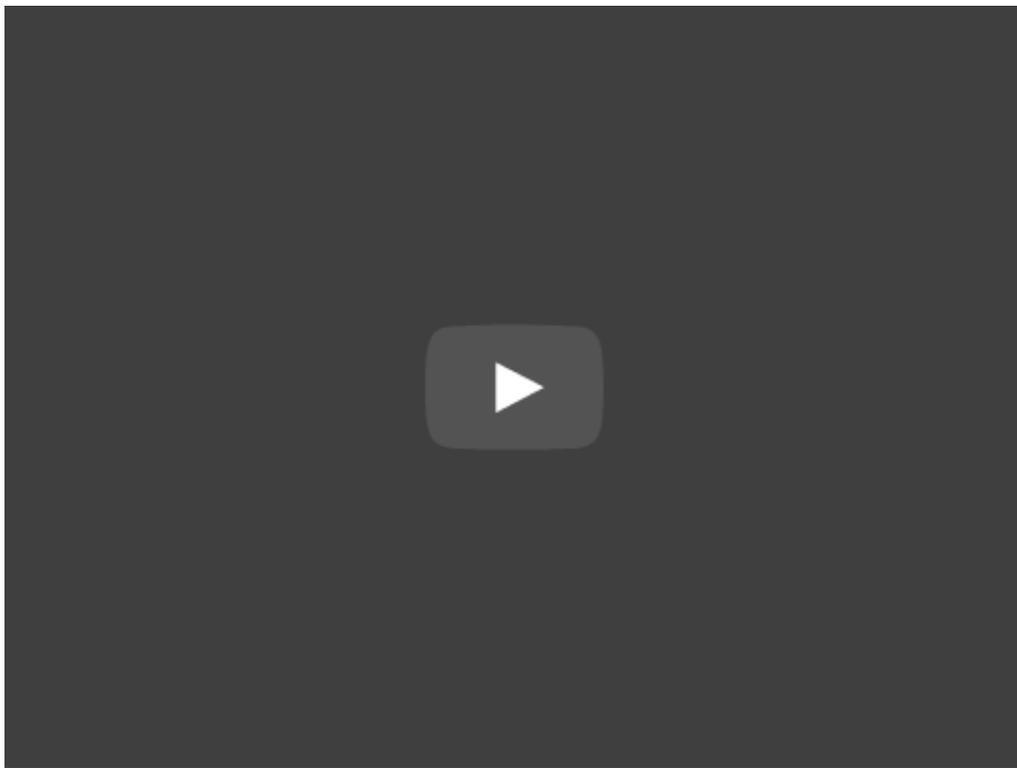

Posted on [April 27, 2013](#) | [Leave a comment](#)

Although Vemma has never made a claim to be a cure for any disease or illness, many who have started taking the Vemma Mangosteen & Minerals formula have experienced remarkable improvements in their health. Proper diet is very important in maintaining our overall health but, sometimes, we don't realize that we are lacking in some of the important vitamins and minerals that our bodies need to stay healthy and fight off disease.

We cannot control the things that contribute to the mutations that occur in our cells. There are so many new chemicals, pollutants and superbugs bombarding our bodies every day that it is hard to pinpoint which ones are responsible for the increase in illnesses. Our best defense is a good offense, in combatting this cycle, and the best offense seems to be taking a quality dietary supplement.

Vemma's products have proved to be premium quality and have given hope to those who are afflicted with various conditions that didn't seem to be responding very well to the medications they were taking. Some have even reported being able to quit their medications completely. Others, such as the little boy who is afflicted with Autism, have achieved miraculous improvements and progress. His mother, Anita Anderson (a Platinum Leader in Vemma), describes his progress in the video below.

Supplement Your Health and Bank Account with Vemma

[Good health](#) and [quality of life](#) are so important, yet many of us suffer needlessly because we don't nourish our bodies to keep them functioning in the manner for which they were meant. By neglecting the proper care of our body, we leave it susceptible to attacks by viruses, bacteria and a host of other maladies caused by changes to our environment. Our bodies were not designed to deal with substances that didn't exist a century ago and so they get stressed when we subject them to those now, sometimes causing breakdowns in our [immune systems](#) and our health.

While we may not be able to turn back the clock to completely **reverse the damage** we have done to our bodies, we can give them the proper **vitamin and mineral supplementation** to help them repair most of what has been done. For some examples of how Vemma's **Minerals and Mangosteen** has made a difference in the lives of those who have suffered from some debilitating conditions and ailments, visit this site:

I, fortunately, do not suffer from any of the conditions listed on the **VMASstories** website.

However, since I started to use the Vemma Nutritional products, I have noticed some improvements in my overall health. My energy level has increased and I have noticed a slight improvement in my eyesight. Also, when my body finally succumbed to the cold virus that had been circulating among my co-workers and customers at work for at least two months, Vemma helped to pull me through it much faster.

The cold came on quite quickly with fever and chills. At the first sign that I had a cold, I increased my intake of the Vemma Mangosteen and Minerals. I usually take 2 ounces every morning but, while I had the cold, I increased that and took 2 ounces three times throughout the day. This helped to replenish the vitamins and minerals that were being lost due to the fever. By following this course of action, I managed to get rid of the cold in only 5 days, instead of the usual 10 – 14 days that it takes to shake a cold.

If you would like to learn more about the benefits of Vemma's line of Nutritional Products, including the new Bod•ē™ Weight Loss line, connect with me on Facebook: <http://www.facebook.com/debs.vemma> or leave a message here with your correct email address. I would love to help you improve both your health and your bank account.
