Moles, Tags, and Warts

Testimonials:

Ruth: "I have been on the mangosteen and minerals product for three months and noticed a large number of moles and tags are gone. I didn't pay much notice when they either fell off or diminished on their own. I have the scars where they were. There are only three very small moles that are loosely attached. I also applied the mangosteen and minerals product on a Band-Aid and applied it on 3 plantar warts on the bottom of my foot. After softening during a regular bath, I then scuffed it with sand paper then repeated the mangosteen and minerals product on a Band-Aid 3 days in a row. I couldn't leave it alone. I picked at it often; as I had for 2 years. It took about 2 months for the skin to completely smooth over."
