Hints & Tips

- Front Load Washers—place Color Catcher® sheet in a mesh bag as recommended by machine manufacturer for small items to prevent sheet from getting into the water pump.
- Safe for use with all fabrics and in all temperatures. Do not overload machine.
- Cotton, darks and red fabrics are prone to color runs. For maximum effectiveness on items with poor colorfastness, use 2 or 3 sheets. Effectiveness cannot be guaranteed when large quantities of dye run from non-colorfast garments. Certain large dark colored items (such as towels) should always be washed separately.
- For best results, do not leave wet clothes in washing machine or laundry basket as dye transfer can occur.
