ELECTRONIC CIGARETTE TECHNOLOGY

Electronic cigarettes are unquestionably innovative, but the principles behind them are simple. At EverSmoke, it's the simplicity we focus on – simplicity of use and maintenance for our customers. EverSmoke electronic cigarettes utilize 2-piece construction and reliable atomizers, so you never have to do more than attach a fresh atomizer or charge a battery. EverSmoke's electronic cigarettes were developed with the latest and most advanced battery and cartridge technology.

Signature Glowing Orange Crystal Tip
The EverSmoke Electronic Cigarettes have an Orange LED that lights up with each puff and will signal when your electronic cigarette needs to be recharged.

Rechargeable Battery
Our EverSmoke electronic cigarette lithium-polymer batteries are proprietary batteries designed for maximum vapor and performance. With 2 batteries in every kit, you are assured a full day worth of vape. Available in a variety of sizes and colors.

Built-In Atomizer
Unlike many other e-cigarette brands, the EverSmoke atomizer is built into the cartridge to produce maximum vapor and ensure that you get a fresh atomizer with each new EverSmoke electronic cigarette cartridge.

Flavor Cartridge
EverSmoke Electronic Cigarette Cartridges are designed and built with our exclusive VaporFlo™ technology that ensures a clean smooth draw that produces maximum vapor. Exclusive to EverSmoke, you won't find VaporFlo™ on any other electronic cigarette brand.

Silicone Tip
The exclusive silicone tip within the mouth piece is designed to prevent leakage. One hole intake for maximized draw and resistance for an authentic cigarette feel.

EVERSMOKE FLAVOR CARTRIDGES

Enhancing your enjoyment of your EverSmoke E-Cigarette has never been easier with our menu of exclusive VaporFlo™ Flavor Cartridges. Various review sites have reviewed and rated EverSmoke's cartridges as producing the thickest vapor they have seen from any other brand of electronic cigarette... all while providing a clean, smooth draw rich with flavors and your desired level of nicotine. Each flavor comes in 15-pack approximately the size of a pack of traditional cigarettes.

Strengths: 0 MG (No Nicotine), 6 MG (Ultra Light), 12 MG (Light), 18 MG (Full Flavored), 24 MG (Bold)

Flavors: Classic Tobacco, Cool-Menthol, Very Vanilla, Cherry Crush, Coffee Creation, **Unflavored**, Fruity
