## Why use Eonsmoke Products over traditional tobacco cigarettes?

Eonsmoke electronic cigarettes are popular precisely because we have so many benefits to smokers over the leading tobacco brands. First and foremost, Eonsmoke products are smoke free and you will never experience the stench that you would if you smoke a traditional cigarette. The people around you will notice when you no longer bother them with tobacco odors. You can often burn yourself or leave unpleasant yellow marks on your fingers smoking regular tobacco. With Eonsmoke electronic cigarettes there is no ash, no flame, and no burns guaranteed. Buy your first Eonsmoke product today and experience the rush! Most importantly Eonsmoke is a friend to your wallet.

Traditional packs of cigarettes can cost anywhere from 10-14 dollars each while each Eonsmoke cartridge which is equivalent to 20 to 30 cigarettes costs simply 3 dollars! Using Eonsmoke electronic cigarettes will reduce your smoking spending expenses by over 75%. Eonsmoke electronic cigarettes provide you with a premium smoking experience without the harmful additives often found in tobacco cigarettes. No foul odors or stench that forces the people around you to leave. No cigarette butts or ash to dispose of when you're done smoking. **Finally no carcinogens, these are so harmful to the lungs because our product is made mostly of water, nicotine, flavoring and propylene glycol.** Purchase the original Eonsmoke Electronic Cigarette set today and begin the smoking revolution!

to traditional smoking except without the offensive odor, tar, and ash. Eon smoke strives to create the highest quality electric cigarette on the market today with plans for further improvement. We offer a superior smoking experience through our creative easy to use two part design which is foolproof. Purchase one of our sets and let the experience become real!

## How do I use Eonsmoke products?

Considering Eon Smoke e-cigarettes consist of only two parts; the battery and atomizer, simply screw the battery and atomizer together. Once the two parts are firmly together you may begin inhaling the cigarette. The Atomizer which is the heating element vaporizes the nicotine solution which you then inhale as a vapor. This is not smoke so you will not feel the traditional burn of tobacco or deal with any tar or ash. We recommend short light puffs in the beginning.

## What are the ingredients of what I'm smoking?

The cartridge ingredients are mostly propylene glycol with secondary ingredients being nicotine, water, and a flavor if you should so choose. Propylene glycol has been deemed reasonably safe to use in food and consumption products being used in food coloring and other industries. Propylene glycol acts as the ingredient which creates vapor mist.

## Where are Eonsmoke products manufactured?

Eonsmoke products are manufactured in China. Do not worry however; We do business with the leading electronic cigarette factories and every product is manufactured to the highest standards. We make sure no underage labor is involved or any unfair manufacturing/business practices occur at any of our factory facilities.

## Can I smoke this in restaurants/bars?

Yes, you can since the Eon Smoke electronic cigarette or e cig does not emit any offensive odor or stench. Many of our customers rave about the fact they can smoke virtually anywhere with this new revolution in smoking. Be aware however people will think you are smoking a traditional cigarette and are liable to ask you to cease your smoking activities. This is where you proceed to tell them you are smoking an Eon smoke electronic cigarette and not a traditional tobacco cigarette!

## Is Eon Smoke a smoking cessation product? Can I quit traditional smoking using this product?

No, Eonsmoke Electronic Cigarettes are not a smoking cessation product. We do not market Eonsmoke products as cigarettes that will
