Posted on 23/06/2015
My friend Maxine used to do dialysis. She took Finiti for two months. When she went to the doctors, she said his mouth hit the floor. Her kidney had reverted to a younger age and healed itself. She no longer needed dialysis. What a great feeling to help such a great lady.

Psoriasis Treatment

Posted on 05/04/2015
Psoriasis is a medical condition that occurs when skin cells grow too quickly. Faulty signals in the immune system cause new skin cells to form in days rather than weeks. The body does not shed these excess skin cells, so the cells pile up on the surface of the skin and lesions form.

Observe the effects of Reserve & Luminesce Serum over the use of 30 days.
