***Alright Facebook world. I am looking for only 3 people to personally mentor who are serious about not only making an extra income, but will commit to giving it their all these next few months and be coachable (Must not be currently enrolled) . **I can help you earn over 1k by August 31st. A lot of you saw what I did in my previous company to hit a 6 figure income at 20 years old.** That was Part time, while juggling college and college tennis. I am now FULL TIME and not playing around. If you seriously want a change, and want to personally work with myself, PRIVATE MESSAGE me below. This is one of those decisions that can change your life forever. Serious inquiries only.
