Luminesce Serum reducing the visibility of liver spots

Posted on 25/02/2015

A 60+ year-old elderly woman (Pictured below) from Malaysia. She first started out applying Luminesce Rejuvenation Serum with a half-believe attitude... After her liver spots began to clear significantly within 2 weeks, she received much attention from surrounding relatives and friends about the change from using the serum. Today, her personal experience has motivated her to be actively involved in the Jeunesse business.

95% of her Liver spots have disappeared!

An 60+ year old elderly woman (pictured below) from Malaysia. She first started out applying Luminesce Rejuvenation Serum with a half believe attitude. After her liver spots began to clear significantly within 2 weeks, she received much attention from surrounding relatives and friends about the change from using the serum. Today, her personal experience motivated her to be actively involved in the Jeunesse business.
