Winnie (aged 60yrs old) who used Luminesce Serum on one side of her face for 10 weeks; went to visit her doctor friend to get further validation on her skin quality as she sees great improvement. (See photo 1 on left)

The said doctor, Dr. John Ang used Dermascope to access her skin. The results shown significant difference in the amount of collagen produced in one side of her skin.

Many people who use the Luminesce skincare range actually saw NO black heads or whiteheads in their skin. One possible explanation is that the collagen actually 'pushed the dirty things' out from your skin.
