MyPillow ✓

May 5, 2013 · 🌐

Dear MyPillow,

I have had back and neck problems since an injury while in the Navy back in 1992. Last year at a department store I saw the My Pillow and remembering the commercials on tv I decided to give it a try. After about 15 min. of playing with it to see how My Pillow worked and to find my perfect adjustment I fell asleep and slept the whole night. That was the first time since the accident that I had slept the whole night without medication.

Thank you. So now I am back buying pillows for my sons. Who are young teenagers and sleep like logs but wake up tired in the morning. I want them to have the same night sleep that I have.

Tommie
