Holly Shlosser Was wondering if there was a link for the drawing or is it that i just need to like, share and comment instead? Looking for a pillow that helps me sleep on restless nights. I get migraines and frequent headaches periodically and alot of the times i don't wake up feeling refreshed anymore. I also get alot of neck discomfort when i sleep because i can't find a sure relaxed position and it's hard for me to get comfortable with the arthritis i have in my mid to lower back area. Will MyPillow take care of this for me?
