MyPillow ✓

January 30, 2014 · 🌐

Mr Lindell,

I began having neck problems since I had a wreck in high school 15 yrs ago. I went through about 20 pillows since that time. I bought a queen sized blue pillow at the Dallas auto show this last year but was extremely skeptical and had almost given up on getting a good night's rest and not waking up with neck pain.

Since that time my wife says I am a new man as I have been much happier because I feel better. I have since bought a total of 5 more pillows to give to family and friends. I also recently bought the topper which I will try out soon. I am also an internal medicine physician and recommend your pillow to everyone with neck problems.

Thank you so much for your hard work and your invention. I am grateful.

Wes

Kim Biddle My husband and I both have them and we love them. We both suffer from neck pain and migraines after car accidents and these pillows are the best. I even use one for between my legs to sleep, and behind my back to sit.
