Surviving St. Patrick's Day with SevenPoint2's Alkaline Booster

Dr. Howard Cohn, DC

Whether it's green beer, corn beef and cabbage, or Irish stew, there's not a lot of alkaline foods to be found at a St. Patrick's Day celebration. In fact, it's one of the

[REDACTED]

The effectiveness of the 7.2 products, along with their lack of side effects and their potential to be a health enhancer, makes them very attractive. At this point I am highly recommending the 7.2 products to a variety of patients across the entire age range. I look forward to the continued development of this entire product line which I find very valuable for such a wide range of medical problems."

SevenPoint2 Case Reports

My name is Tom Kelley, I'm from Nampa, Idaho and this is my story. Basically, I didn't want to be fat and unhealthy anymore. I'd been watching my fiancé, Catherine, lose some weight and feel better on the 7.2 program. One day we watched Fat, Sick and Nearly Dead; it REALLY resonated with me! I decided it was time to see what these products could really do! Believe me, I was skeptical.

On December 8, 2013, with Catherine and Leslie cheering me on and Juliana giving me advice, my journey began. My goal was to use the 7.2 products and juice for 60 days.

I am a professional truck driver on a dedicated route from Boise, ID to Reno, NV three times a week. I'm home every other night and off on Saturdays. On the nights I was home, I juiced enough drinks for the next two days on the road. I drank two Protein shakes with Greens twice a day and had juice and water the rest of the time. I took Recovery three times a day and Boosters at night. I also took two Green Caps every day at lunch.

By the end of the first week, I was noticing major improvement! I lost 8 lbs, but even better, I FELT GREAT!! My energy level was through the roof! I began walking everyday because I felt so energetic, even after driving 9 hours. I didn't care how cold or snowy it was, I WANTED to walk. I even made it through Christmas and New Years without a problem. My palate was changing and I didn't crave ANYTHING! I really wanted my juice and shakes.
