Vascular dementia

Alzheimer's disease

Memory loss

Additionally RESERVE also:

Reduce blood pressure

Lower blood sugar levels

Decrease heart attack and stroke risk

Improve mood

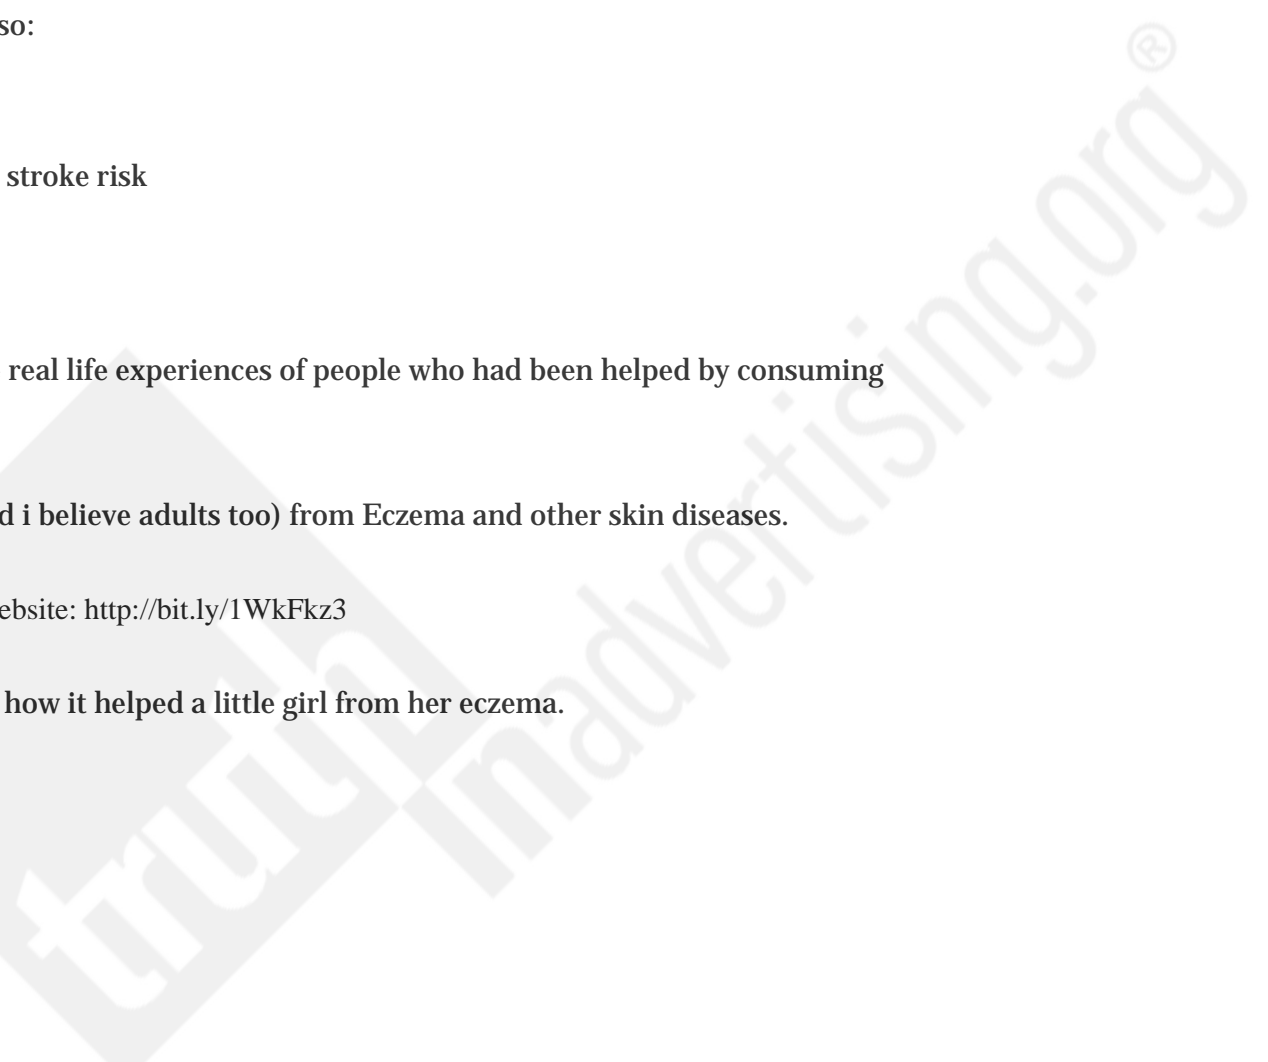

Improve immune system

These are just some of the real life experiences of people who had been helped by consuming RESERVE....

It has helped children (and i believe adults too) from Eczema and other skin diseases.

Shop only at our Jeunesse website: <http://bit.ly/1WkFkz3>

Here are some pictures of how it helped a little girl from her eczema.

This man had multiple sclerosis for 13 years which left him paralyzed, wheelchair-bound, blind on one eye & multiple disabilities. After chemo treatment he was left feeling weak and frail. He was surprised that after taking RESERVE, he started to feel stronger and more energetic. RESERVE repaired his damaged brain tissue, as well as his ability to walk and control his bladder.

I have multiple sclerosis for 13 years. Over these years I have many attacks causing me to be paralysed, wheelchair-bound, blind on one eye & multiple disabilities. In May 2011, I went for chemo treatment to stabilise my condition. After the treatment, I was weak & frail.

During that time I was introduced to Jeunesse Global, I wasn't expecting much, thinking that it was just another product. Surprisingly, I started to have more energy, get stronger & recover faster!

My walking and bladder control are back to normal & damaged brain tissues have fully recovered. I decided to share the products & opportunity to everyone.

Today Jeunesse have given me & my dad back our health, my wife & mum became prettier & younger and also passive income into my bank account everyday.

Thank You Jeunesse Global!!! - Alvin Phua

The complex block contains a testimonial for a man with multiple sclerosis. It includes a paragraph of text describing his condition and recovery, a paragraph about his initial skepticism, a collage of three photos (a group of people, a man in a tuxedo, and a man in a wheelchair), a paragraph about his regained health, a paragraph about his family's improvement, and a final thank-you message.

This person had last stage Leukemia. Seven days after six packs of RESERVE daily, her blood

patches subsided!

Jeunesse Global Singapore
29 minutes ago

Last stage Leukemia patient, doctor gave up treatment on her. Took 6 Reserve/day. After 7 days blood patches subsided!

What wonderful products we have in Jeunesse that can really help others in need and not just a myth or hearsay

急性血癌末期，作了五次加速化疗，加速病房出床时遍身血斑，醫師放棄，有福得遇見妳所願也。 一五二一號 十三

This young lady had skin cancer. Chemo treatment may cause her to become blind. After taking nine packs of RESERVE daily, she started to recover from her skin cancer within two months.

This toddler was diagnosed with liver cancer. He was fed 2 packs of RESERVE everyday. In just two months, he was able to finally drink milk without throwing up. He is recovering well.

RESERVE治疗了一岁半宝宝的肝癌!

我们不信神话 只相信科学!

想了很久

今天我想和大家分享我的孩子的故事。这是我第二儿子，晓晓。一岁六个月是个很可爱，把谁都对人喜欢的孩子。很不幸的在今年9月肚子突然的腫了一大粒，看了醫生，驗裡面有腫瘤檢驗結果得了肝癌。是不是作弄人才一歲多的孩子得了肝癌。當時我的心情真的想沖出去指著天罵一堆三字經，為什麼這樣對我的孩子，他做錯了什麼要這樣懲罰他，哭了一餐我接受這事實。

之後醫生說，要在曉曉皮膚底下放一條管子，因此曉曉進了手術室，過後進行了化療，化療過程需要打8支藥，1支藥進身體需要24小時，如果有什麼可能還會內出血，導致死亡。

從開始9月我就一直家裡醫院兩邊跑，一個月起碼3個星期都在醫院度過，有時候驗血驗到血不美也沒得送藥，需要到醫院等，要不然就是血不夠需要進血，小小的他開始慢慢的瘦，憔悴，落頭髮，皮膚顏色變暗淡，嘔吐，腳沒力連站都不行。

之後我在網絡上面看見了Reserve。我不想看他那麼的辛苦，一直血不夠要進血我就包養一絲希望購買了Reserve來給他喝，真的連醫生都不信，做他的血沒有少指數也美，腳也有力很多，也愛站著愛牽著走路了，甚至化療時候也少吐了，而且精神了很多。

Reserve真的幫曉曉很多。在26/11好不容易按完化療過程，等待16/12可以開刀了。結果出了水痘，水痘生到全身上下都是，因為不是普通的孩子，又剛進完化療的藥，所以毒素全部都被散發出來，醫生說癌症小孩比一般小孩出水痘來的更加嚴重，甚至有死亡，現在我堅持給他一天兩包Reserve，現在為止也好很多了，比較有胃口喝奶了，也有精神很多了，呵呵，今天這和我笑笑說，媽媽愛你，雖然講話不准啦~
有人告訴我，好的東西你自己會看見效果，我看見曉曉身體的好轉，謝謝Reserve讓我遇見你。

RESERVE helped many to achieve their ideal weight!

Visibly slimmer after 1.5mths on RESERVE™

3 packs RESERVE™ daily. Lost 13kgs within 6 months.

Lost 10kgs in 2mths

What causes premature aging?

Can we do anything about it!

Medical and nutrition experts worldwide recognize that a major reason for premature aging is the damage that free radicals have on our cells. These experts indicate that an effective way to defend against free radical damage is to ensure we are consuming a plentiful amount

of antioxidants. According to a substantial body of medical research and clinical trials, the best way to do this is to consume the right foods and take antioxidant supplements.

Many people around the globe had reviewed that RESERVE has helped them tremendously.

RESERVE

What is so special about RESERVE?

Remember on the outset we learnt that the cause of premature aging is the results of the damage that free radicals have on our cells? RESERVE is an excellent defense against free radical damage. RESERVE delivers a significant amount of resveratrol, a natural antioxidant-containing compound found in the skin of red grapes, in a highly bio-available gel form, making it more absorbable than encapsulated products. The good news is, it won't take long to expect results from using the product.

Estimated 14-21 days to begin the anti-aging benefits and 5-7 days for an increased feeling of overall wellness and vitality.

Using age-defying technology, RESERVE is the result of innovative science and ground-breaking research on behalf of medical professionals throughout the world. RESERVE'S superstar ingredient, resveratrol, is accompanied by a supporting cast of other powerful antioxidants like açai, pomegranate, blueberry, dark sweet cherry, aloe vera, grape seed, and green tea. This extraordinary supplement will jump-start your day with amazing anti-aging properties and important nutritional benefits.

Incorporate RESERVE into your daily wellness routine and enjoy the following benefits:

- Antioxidants resist oxidative stress and premature aging
- Anthocyanins support healthy cardiovascular function
- Essential fatty acids assist in digestive tract function
- Reinforces a healthy immune system
- Helps maintain a healthy metabolism
- Helps boost energy
- Supports healthy joint function
- Positive cap-e test results indicate that RESERVE penetrates and protects live cells from oxidative damage

FAQ

Why do we hear so much about free radicals?

Medical and nutrition experts recognize that free radicals can lead to negative health consequences. Free radicals attack our cells continually, opening up the possibility of degenerative health concerns and contributing to the aging process.

Why is it important to consume RESERVE?

With its unique combination of antioxidants, anthocyanins and essential fatty acids, RESERVE™ is an excellent defense against free radical damage. Daily consumption of this delicious fruit blend will help you to incorporate good nutrition as part of a healthy diet.

What are some of the specific benefits provided by RESERVE?

- Antioxidants to resist cell inflammation, relieve oxidative stress and helps in delaying premature aging.
- Anthocyanins in this product help to support improved cardiovascular function.
- Essential fatty acids in RESERVE provide support for healthy digestive tract function.
- Phytosterols will help to support healthy cholesterol levels.
- Healthy immune system support
- Increased metabolism

What is the absorption rate into the body for this product?

RESERVE is absorbed into the body within minutes. The bio-available gel form of our product makes it much more absorbable than encapsulated products. We often see that resveratrol is available in 500-1000 mg capsules. To maximize the anti-aging benefits of resveratrol, what is the best dosage? RESERVE contains an optimal dosage amount of 75 mg of resveratrol per serving. The body's ability to absorb this important substance is even greater because of the combination of natural fruit ingredients which all work together to help achieve excellent nutrition. The mega-doses in those capsules are not readily absorbed into the body.

Are there any side-effects from taking too much of this product?

This product is very safe. If you were to consume more than 4 gel packs in one day, first-time users might experience some mild gastro-intestinal disturbances and loose bowel movements. It might also result in some people getting mild headaches from the resveratrol dosage.

What is the effect of combining resveratrol with the other ingredients in RESERVE™?

Jeunesse has created a perfect balance with resveratrol, blueberry puree, pomegranate extract, grapeseed, aloe vera, acai and green tea. These ingredients work synergistically together to increase the beneficial effects of anti-aging and to promote an overall feeling of wellness in the body with massive doses of antioxidants.

Is there any recommendation of how to take this product to maximize best results?

You have total flexibility with this product to achieve great results. You can take the product first thing in the morning or before bedtime. A dose of RESERVE™ would be a great way to start your day with breakfast. Or you can take one gel pack twice daily, in the morning and at night.

Does the product need to be stored at any specific temperature?

Room temperature is fine. The product should be kept away from excessive heat. This product is

loaded with natural minerals, trace vitamins and antioxidants that can be harmed in the presence of excess heat. The colder the product the better and the taste is exceptional after refrigeration.

Is there a timeframe of when to expect results from using the product?

14-21 days to begin the anti-aging benefits and 5-7 days for an increased feeling of overall wellness and vitality.
