3# Shalene Gardner – at age 50 hysterectomy and follow up surgery horrible pain- feet and legs on fire..skin sensation heightened anything with texture felt like it was ripping..5 years of doctors. They told me the diagnosis of this Auto Immune Disease was permanent. \$120K worth of every treatment they could find. She still had to work to pay for that. Her insurance only covered 10% One treatment was wearing Sticky Ugly White Lidocane Patches you wear for \$890 insurance doesn't cover it. Then they started on Morphine and OxyContin- she didn't want to be addicted to drugs but it was the only thing that would even take the edge off. She was also on Anti-Depressants, Sleeping Pills and she was Cationic.

She started Drinking Jusuru – Pain meds less and less, energy returned, walking, waking up happy, besides memory clear, skin, neck, light and life in face. Got her life back. Left thumb ached couldn't open bottles etc...and it is better now.
