## My Surprising Jeunesse Reserve™ Review

Posted on July 11, 2015, by admin, in *Uncategorized*, tagged

We have gone over what Resveratrol is and why you should use it but that doesn't really help make the decision to purchase the Jeunesse Reserve™ product or not, does it? I didn't think so, what if I could show you happy customers, customers whose lives have been completely changed for the better, customers who have turned their negative health issues around and became much healthier and even younger looking and feeling?

Before we dive into the Jeunesse Reserve™ reviews and Jeunesse Reserve™ testimonials I would like to show you exactly what is in the product we are talking about. Most times products contain the main ingredient, which in this case would be Resveratrol, but then they are filled with chemicals, toxins and just filler ingredients that serve no purpose, so you ask how is Jeunesse Reserve™ different?

Jeunesse Reserve™ is different because unlike most products, Jeunesse lists their ingredients right on the package in plain sight, they are transparent in the fact they have nothing to hide nor do they hide anything.

### Jeunesse Reserve™ Ingredients

Resveratrol: Studies show that this antioxidant-yielding compound can provide a wide range of benefits

and may be one of the most effective anti-aging tools available.

**Dark Sweet Cherry Juice:** A naturally sweet source of antioxidants that aids in maintaining a healthy cholesterol and inflammatory level.

**Aloe Vera:** Helps to maintain healthy sugar and inflammatory levels.

**Pomegranate Juice:** A naturally sweet source of antioxidants that may be helpful in maintaining a heart health.

**Green Tea Extract:** A potent source of antioxidants that also provides immune system support.

**Blueberry Juice:** Their deep blue color is a significant source of anthocyanins which have the remarkable ability to fight oxidative stress.

**Grapeseed Extract:** A potent source of antioxidants and Vitamin E.

**Concord Grape Juice:** A naturally sweet source of Vitamin C that assists in maintaining a healthy immune system and heart health.

**Acai Extract:** A naturally sweet source of antioxidants.

So, you can see that the ingredients can be seen easily and I am willing to bet you probably know what the majority of those ingredients are or where they come from, there are no surprises. Now that we know what is in the supplement, let's take a look at what real people think of [Jeunesse Reserve™](#).

**Testimonial #1** comes from a 35 year old gentleman from Malaysia who was diagnosed with three coronary arteries that were seriously blocked. His diagnosis came October 2011, and by November 2011 when he went in for surgery his doctor informed him that the two arteries that were blocked completely were cleared and the third artery went from 80% blockage to 30% in a month time frame. The gentleman began consuming three gel packs of 30ml of Reserve™ the day he found out about the blockages and a month later he was almost cured completely.

**Testimonial #2** is from a liver cancer patient's PSA reading, measured 16.34 on May 2010, again this gentleman began consuming three packs of Reserve™ each day and only 3 months later the PSA reading went down to a 4.00 level, which is a healthy level. It was almost like his cancer was cured!

You have heard that an apple a day will keep the doctor away, now it can be said that two packs of Jeunesse Reserve™ a day will keep the doctor and serious illnesses away! Let's see what other people have to say about the product as well.

**Testimonial #3** A woman in Taiwan was diagnosed with diabetes and was scheduled for an amputation appointment for her finger which had developed Gangrene. The appointment was scheduled for nine days later. The woman figuring she had nothing to lose began taking Reserve™, three packets each day. On the second day she began to feel acute pain in her finger, but wait wasn't this the Gangrene finger? The pain grew to be too intense for her; she called the doctor and begged to have her finger amputated that day instead of waiting. The doctor after hearing her complaint congratulated her and requested her to come back for a re-examination. Sure enough the finger had regained blood flow and would not need amputated after all. This all happened after just a few days on the Jeunesse Reserve™ product.

**Testimonial #4** Parkinson Disease is a serious disease to have to live with, but a patient suffering from Parkinson disease started to take Reserve™ on a daily basis for two months. The man went from needing two assistants to hold him up in order to walk, to walking 100% on his own. The gentleman is convinced it was the Resveratrol in the Reserve™ that cured him and gave him his life back.

#### Is there anything I didn't like about Jeunesse Reserve™

To be honest, I have to say I really struggled in finding something that I didn't like about Jeunesse Reserve™.

However, it was reported that some people may experience a temporary detox effect. Detox is a process whereby our body expels toxins. We are exposed to toxins regularly in our daily live, from food (refined sugar, refined wheat, alcohol, caffeine, etc.) and chemicals (pesticides, fungicides, food coloring, MSG, etc).

Reserve™ cleanses our body by releasing these built-up toxins. In certain people, this process brings about some unpleasant symptoms which may include skin breakouts, body aches, gastro-intestinal disturbances (gas and bloating, constipation or diarrhea), mild headaches, mild fever, or extreme cravings (for sweet, salty or other unhealthy foods). These symptoms are only temporary. It is recommended to continue to consume Reserve™ and the symptoms will go away once your body has fully detoxed. You will need to drink a lot of water to help your body flush out the toxins.

#### What I liked about Jeunesse Reserve™

In addition to everything I previously listed in this [Jeunesse Reserve™](#) review, I really like the fact that Jeunesse offers a 30 day, 100% unconditional money back guarantee.

I personally feel that this helps to remove any hesitations you may feel about buying the product outright. Just make sure you read their terms and conditions to make sure you return the product in time (if you find you don't like it).

It is truly amazing what a genuinely good product can do for the human body, diseases, ailments and illnesses that might not have a cure otherwise, even with the best modern medical teams working to find cures, and yet this one product can turn your poor health around into quality health, good health! It's a quality life well worth the investment? Well I have to say yes! Feeling great does not have a price tag

especially since this is affordable. Continue on to our [Buy Jeunesse Reserve™](#) page to find out how you can have this amazing product.

Testimonials.....

**Parkinson Disease\* Testimonial:**

A 75 year-old senior citizen in Taiwan (below) was suffering from Parkinson disease. Before taking Reserve™, he needed two helpers to hold him in order to walk properly. His energy levels were very low, as shown in his tired eyes.

After consuming Reserve™ on a daily basis for two mths, he can walk up to the stage without any assistance & share his own testimonial on the benefits of Reserve™.

Look at his eyes and facial expressions now.

Isn't it amazing?

**Today, he can walk, jog without any assistance after a period of six months of consumption of Reserve.**

**Reserve™ saved my leg!!**

Andrew, a consumer of Reserve™ is relieved to have saved his right leg, in light of the fact that the surgeons wanted to amputate it all the way up to the knee cap.

Andrew had a few weeks left from a scheduled amputation of his right foot. He was introduced to take Reserve to see if it can help to reverse the bad medical condition while waiting for the date to come.

He had now declined the amputation after the swelling subsided and the infection is gradually recovering. No one can believe it.

Many are calling it a miracle, especially when the doctors told him that an Amputation was the only remedy.

**RESERVE™ Cured Gangrenous Fingers!**

The picture shows how a Diabetes patient in Taiwan was told to come back for amputation appointment on her Gangrene finger nine days later.

She started to feel an acute pain on the 3rd of drinking the Reserve fruit blend (75mg of Resveratrol in each 30ml gel packs).

It was so painful that she called her doctor and requested him to amputate her finger straight away instead of waiting for another few more days for the next appointment.

After listening to her explanation, her doctor congratulated her for regaining a healthy blood flow to her finger. He told her she DO NOT NEED to amputate her finger anymore but just revisit for re-examination few days later.

Type 2 Diabetes for 27 years, consumed 3 sachets per day for 30 Days, Went for blood test and found that he no longer have Diabetes.

ProPectin also helps with High Blood Pressure, Cholesterol control, heart diseases, detoxification of metals in our body (heavy metals like mercury)..... Especially helpful for people who had radiation treatment, chemotherapy treatment, people who are exposed to radiation.....
