"Hi my name is Amanda Carmin, I just turned 35 years old have an amazing but crazy busy 7 and 12 year old. I am in the fight for my life, which involves a lot of oral meds. I have been struggling so much with lack of clarity and lack of energy. I truly wanted to do something for this; however, I didn't think there was a chance that my doctors would let me add another supplement to what I was already taking. Much to my surprise the doctors and the pharmacist gave the BIG OK for me to take EHT. You better believe I took one right then and there. I have been on it 2 solid weeks and while I thought it would take a longer time frame I was wrong. Because of all the meds, I wake up in the morning feeling sluggish and would really prefer to go back to sleep. Since taking EHT, I get right up out of bed and am ready to go. You have no idea what this means to a generally drained medicine-laden body. I have also noticed that my clarity is getting a lot better. What a gift to me and my children! Thank you Nerium International and Signum
