Please join me. This webinar will change your life, not can change or may change, it WILL change your life.

I have attached a product information sheet. This sheet contains all there is to know about Jusuru. It includes all of the ingredients and their potential as well as their chemical makeup. This explains exactly why this is such an important supplement to our lives.

I can tell you my experience; I have had a virus for 20+ that is has been very debilitating. I have taken the physicians medications and that caused hair loss, fibromyalgia like symptoms and Rheumatoid Arthritis from the depleting of my immune system, as well depression and other side effects. I began taking 2oz of juice in the morning and 2 at night and I began to have an energy supply again. I began accomplishing tasks that I could not even fathom just a week or two before. I have been on my roof repairing it and wielding my chainsaw to cut a neighbors trees up and that is just the beginning. The bumps in my fingers have stopped growing from the RA; I can walk straight down the stairs in the morning instead of backwards. These may seem like small things to some of you but they are great feats for me.

Having a fitness and nutrition background, I want to say that the greatest thing I got about this juice is that it gets absorbed into your body right away. It does not have a capsule to dissolve or a tablet to melt in your stomach, therefore you receive the whole benefit of the BioCell Collagen II technology, Amazing!!!!!!!

I want to tell you about my friend Chris. He started taking the juice 1oz twice a day and after about a week he was waking up in the middle of the night dizzy and feeling awful. Having said that I need to tell you he is a diabetic, Type 2. Because of this juice he has had to cut his insulin medication by more than 1/2. He now only takes it once a day. He is healing from the inside out. That is the miracle of this juice.

There are many more stories and testimonies' much greater than ours. Please check out our webinar and see for yourself and maybe get some questions answered while you are there.
