**AFTER YEARS OF PAIN, IN 2 WEEKS -- OFF MORPHINE! My friend Marc's Personal Testimony**

In years past, being a disabled Veteran since the 70's, debilitating complications from multiple surgeries had disabled me to where I could no longer work. These injuries were compounded by life's other misadventures; severe car and motorcycle accidents, Martial Art's injuries; and other incidents really too numerous to mention. My body had become riddled with arthritis.

Along with rapid weight gain, I had post traumatic sleep disorder, sleep apnea, high blood pressure, high triglycerides, severe chest pains and the onset of Type II Diabetes. All these joined together to make my life a living nightmare! I'm only in my late fifties, but I could literally feel my life energy slipping away from me. I was becoming so ill so rapidly that I was truly afraid that I was going to leave my wife alone without me, as a widow.

I had tried every natural Holistic remedy I could get my hands on, nothing worked! It seemed I was spending more time in the V.A. hospital than at home. Their answer to my dilemma was to keep pushing all sorts of prescription medications, along with stronger and different pain pills at me.

**SIX EXTENDED RELEASE AND BREAKTHROUGH MORPHINE PILLS A DAY!!!**

These drugs were not helping me, they were **KILLING** me! Not to mention my blood work was showing severe damage to my Liver due to the drugs.

When I heard about Liquid Bio-Cell and studied the science behind it I enrolled as a wholesale customer and ordered the product immediately. I started the product on August 27, 2013 -- not quite a month ago and I've been getting healthier in leaps and bounds!

This product has worked incredibly dramatic results in my body! My pain and inflammation disappeared literally overnight. Getting out of bed every day was such a slow agonizing process because all my joints would lock up while I slept. The morning after we started on the product, my cat woke me up meowing loudly to be fed. O.K. O.K., so I hopped out of bed took like three steps and stopped in my tracks. I couldn't believe what I wasn't feeling! My inflammation was gone, I had hardly any pain. My wife was staring at me and said, "WOW! I haven't seen you get up that easy in years!"

I had turned into such a crab from living with such debilitating pain and Chronic Fatigue. Now everyday that goes by I'm feeling better than the day before. I sleep great, and I wake up hitting the deck running; I'm even singing in the shower again. In less than one month's time I'm now off the pain pills. I didn't want to wait for the V. A. Though it was pretty tough, I weaned myself off in the first seven days. I had to cut my blood pressure meds first in half, then into quarters; I was off altogether within 14 days! At 21 days my B.P. was 119/79. I'm off my Glipizide tabs, and my blood glucose levels are more than perfect! I'm working out again and the weight is falling off me like never before. My toe fungus has even disappeared, not to mention my soft fingernails have gotten really hard. Now I'm really looking forward to seeing positive test results in my Liver. I could go on and on about all the ways it is also helping my wife. But I'll leave that testimony for her to tell.

If you're hurting, or know someone who is and wants to look and feel younger; Jusuru won't let you down like other products I've tried. Ultimately, our personal health is our own responsibility. For the first time in such a long time, we are in love with LIFE again! This is such a potent nutraceutical. It has been like a Genie in a bottle! My friends and family can hardly believe how fast this awesome product is transforming our health.

I truly want to thank Jusuru; and thank you Doris for caring enough about my situation to share this with us and turn our lives around. Marc
