FIBROMYALGIA

1. "I suffered from the symptoms of Fibromyalgia, arthritis, and chronic fatigue syndrome. I have tried other nutrients with a degree of success. After consuming transfer factors, Fibro AMJ, and BioVitaMins for a couple of months, my symptoms decreased by at least 50%. Now, after six months, I am virtually symptom free." Kay B.
2. "Three years ago, I contracted polymyositis, an arthritis that destroys the muscles. A friend introduced me to Fibro AMJ. I've been taking it for three weeks. The pain is gone. Last Thursday, I installed a satellite dish on our roof. I went up and down the ladder about ten times. That night, we went bowling. I got up Friday morning, and there was no pain. As far as I can tell, everything this product is said to do, it will do. I love it." Don S.
3. "I have suffered from deep aches in my muscles and bones. Sometimes my legs would go numb. I suffered from deep pain in my joints. I ordered Fibro AMJ and Prime Choice. Now I am 90% free of pain. I feel like a new person. I have more energy than I have had for so many years it is hard to remember." Marsha Miles
4. "I've been taking the company products for about nine months now. And I started them with the goal of reversing the Fibromyalgia symptoms that I've suffered for about twenty years. I've tried a lot of different things over the last twenty years and really had learned to cope with the condition until about two years ago. Then at that time I really got into a downward spiral that just never seemed to stop. It included chronic pain, and fatigue, and sleepless nights and depression and so forth. I started on the products, Fibro AMJ Complete Pack and Choice 50, and in about two weeks. I was sleeping better. After about two months on the product, I felt like I had just walked out of a tunnel into the light of day. After three months I reached a level, I would say, of 95 percent symptom free, or status of 95 percent symptom free living. I've really enjoyed that level of health for the last six months. I really do appreciate that, and I really am thankful for that opportunity to, to reverse the symptoms of Fibromyalgia. I've also been able to help a lot of people with that condition." Bonnie P.
5. "I have fibromyalgia and MS. I just have been in lots and lots of pain for years. It started with migraines when I was younger and then I had polio when I was 28. From that time on, the pain and the chronic migraines just got worse and worse. Finally last year I ended up in bed and felt like I was a piece of cooked spaghetti because I just lost all my strength from my neck down. I had used a lot of herbs. I had been to a lot of doctors, and had used alternative remedies for years. Then I had a friend that talked me into using transfer

factors rather, and I started out with four or five a day and worked up to eight. Then Dr. Robertson told me that I needed to get on ten or more a day. I started out feeling just a little bit more strength if I lay in bed. I'd get a little bit stronger and a little bit stronger. Little by little I got stronger and then I had more time between my episodes. Finally after about two and a half months on the product, I got to feeling really, really good and didn't have a lot of episodes until I went outside and started pulling weeds. That kind of knocked me down again for a day. I have been using at least eight transfer factors capsules a day and for the pain I've been using the Fibro AMJ which has just been fantastic. Whenever I start feeling the pain come on, I use that. I take two in the morning and two in the afternoon and then whatever else I need. The Fibro AMJ nighttime, I use that and it has helped because my left side would hurt, or my legs would twitch, or whatever. It has been just fantastic. Then Dr. Hennen and I got talking after the enhanced transfer factors came out. I am still using both the transfer factors and the enhanced transfer factors. I'm just doing great. In fact I'm out jumping on the trampoline with the grandkids sometimes. It's just been fantastic, and I've been able to work this business now and it's just fun." Sue H.

6. Just had to let you know that I began taking Fibro AMJ 5 days ago and what amazing results I have had! I have been suffering with Fibromyalgia for years now, with the constant discomfort, pain, muscle spasms, nerve pinching, muscle tightness, fatigue, heaviness in the legs, etc. Since I started taking Fibro AMJ not only does it feel GOOD to stretch my muscles, I feel like I HAVE to stretch them! My muscles are much looser, especially around the neck/shoulder area. No more nerve spasms if I move a certain way ... Oh and way much more energy!!! I actually don't feel like a 90 year old woman anymore!" Lisa

7. "I just continue to be amazed at what we can do with transfer factors. I have been taking transfer factors for a year and have had very good results with my chronic fatigue, fibromyalgia and other illnesses. Enhanced transfer factors came out June 1st, 1999. I added that to my regimen, not thinking anything would change. Within about the first 2-3 weeks I started noticing some major changes. For ten years I haven't had eyelashes because once I had my hysterectomy, I acquired an autoimmune disease which caused my eyelashes to fall out. Ten years they have been gone. Now, I am wearing mascara. They haven't fallen out for two whole months. It's a miracle!" Sue B.

8. "I've had chronic fatigue and fibromyalgia since August 1991. I've also had shingles five times in that period. This winter I had shingles very bad from the end of September until the end of February and still have them somewhat. I'm able to get up and get dressed at this time. I started on transfer factors and the Fibro AMJ system about six weeks ago, and I am now sleeping through the night with no sluggishness the next day. I have energy, and every morning I am able to get up at 7:30. My husband will verify that it has been many years since I've done that. I've been packing to move for 12 days straight and I have energy every single day. I was not able to cook a meal and do the dishes in the same evening; I would cook a meal and do the dishes the next day, or possibly even the next, because I could not stand on my feet. So I'm extremely excited about transfer factors and I want to tell everybody that has fibromyalgia to please take this and get yourself well." B.J.F

9. "Late in the fall I started developing more pain, severe pain along with a lot of depression, fatigue, sleeplessness, upset stomach, and an assortment of other things. The pain was so severe that I could hardly use my hands to do my new business, baking gourmet dog treats. I finally gave in and went to the medical doctor. Well, after being diagnosed finally with fibromyalgia I could understand what and why I was feeling the way I was. An acquaintance of my husband told him about transfer factors and this company. I said to my husband again, "No way, it's a network marketing company. No way." So my husband checked out the web site and he came running out of the office and he says, "You won't believe this. They have a product on here for fibromyalgia." I looked on the web site, and we did a little research on it. Still it took my husband two more weeks to convince me that I had to try this product because I was trying other stuff. I just thank the Lord that he convinced me to try this product. The product came on a Friday and I took it Friday, Saturday and Sunday. Monday I told my husband, "I can't believe a product works this fast. No product is this good." Still my husband was trying to convince me to take the transfer factors, which I had not been taking, I was just taking the Fibro AMJ just to see if that worked. So on Tuesday I started taking the transfer factors along with the Fibro AMJ I was already taking, and in two days time I can't explain how great I felt. That "fibro fog" was finally gone. Now I've been on the product ever since and I have very little pain, no bad days of

depression, and I have a much, much better outlook on my new life." Kathy W.

10. "I am a young woman with fibromyalgia, with symptoms like migraines, muscle aches and exhaustion. I started on the transfer factors and Fibro AMJ system and am able to get out of bed and do the activities of daily life." Kelly Z.

11. "I was diagnosed with fibromyalgia about 3 years ago and realized that I've had it for many years. I've been taking the Fibro AMJ Day-Time and Night-time formulas since May of 1998. I am a totally new person. I'm back on my 5 mile walks again, and I can golf 18 holes and do my housecleaning. I also started on the BioVitaMins a couple months later. I'm not as tired and I'm starting to have a lot more energy. I think it's a wonderful program. I am very happy with what it's going for me. I can live again." Dianne

12. "I have Fibromyalgia. Since I've been taking the Fibro AMJ, I've been sleeping a lot better. It also helps to alleviate the pain; and so, I am just really impressed with this, the more I learn about this product, the better I like it." Yvonne K

13. "I have fibromyalgia and multiple sclerosis (MS). I just have been in lots and lots of pain for years. It started with migraines when I was younger and then I had polio when I was 28. From that time on, the pain and the chronic migraines just got worse and worse. Finally, I ended up in bed and felt like I was a piece of cooked spaghetti because I lost all my strength from my neck down. I couldn't walk and I couldn't function. I had used a lot of herbs, I had been to a lot of doctors, and had used alternative remedies for years.

"A friend talked me into using a product containing transfer factors. I started out feeling just a little bit more strength if I lay in bed. I got a little bit stronger and a little bit stronger. I noticed I could at least get up with a cane or something like that for a little bit of time. Little by little I got stronger and then I had more time between my episodes. Finally after about two and a half months on that product, I felt really, really good and didn't have a lot of episodes until I went outside and started pulling weeds. That kind of knocked me down again for a day.

"I have also been using a product for the pain that contains Methyl sulfonyl methane (MSM), Boswellia serrata, Grape extract, Devil's Claw, Alpha lipoic acid, Magnesium, Vitamin B6, Malic acid and more, which has just been fantastic. Whenever I start feeling the pain come on, I use that product.

"Later, I tried a product with transfer factors, zinc, maitake and shiitake mushrooms, IP6, cordyceps, thymic factors, manans and beta glucan. I had a little bit more cleansing go on, so I backed off the amount I was using. I'm just doing great. In fact I'm out jumping on the trampoline with the grandkids sometimes. I do have to watch it a little bit and get some rest. But I've never been down like I was last year. It's just been fantastic." S. H., Utah
