

Fibromyalgia?

What RESERVE & AM/PM has done for me!!!

I was diagnosed with Fibromyalgia May 2013. I have struggled daily with pain, depression, feeling drained, sleep apnea, weight gain, and the taking of horrible steroid medication with absolutely no relief. I have tried **MANY MANY** other medications and supplements and to no avail they did not work for me, it only created more problems with weight, pain and sleepless nights. March 3, 2015 I started using the **RESERVE** in the morning and night along with the **AM/PM** from Jeunesse. I found myself sleeping more, relaxed, less pain and inflammation. My flare ups are so few and far between that I have not had one since March 30, 2015. This is absolutely an incredible feeling to be able to sleep throughout the night without pain. Now I am going to try the weight management system **ZENBodi** because if this has me feeling this good cant wait to try their other system.

Do you suffer with Fibromyalgia? Then look no further I have something for you - Check out Jeunesse Reserve Gel Packs they're delicious too - I freeze them & give them to my grandchildren as ice pops - a great way to get some antioxidant goodness inside their little bodies
