Haemorrhoids

HAEMORRHOIDS

My complaint was chronic haemorrhoids, which used to occur at least 5 times a week. This caused me to bleed everytime I went to the toilet. This conditiona caused me much suffering for 3 years. I have tried various medication and food supplements but nothing helped. Then a year ago, I started using Transfer Factor. Initially, I ate 4 capsules of Transfer Factor Advanced every day. Within 3 months, my haemorrhoids disappeared. Now, I continue to take 2 capsules of Transfer Factor Advance a day. I recommend that everyone believe in the efficacy of Transfer Factor. Taking at least 2 capsules a day can really help improve overall health.

Wong Chooi Mooi, 53 years old, Female, Seremban, Negeri Sembilan, Malaysia.
