

Doctor Testimonies

Discover what some of the greatest minds of the scientific and medical industry are saying about transfer factor.

"Transfer Factor is the most promising breakthrough in health care discovered in the past several decades. We are just beginning to explore all of the potential of transfer factors. Nutraceuticals like TF are the wave of the future." **Dr. Victor Tutelian, MD, MPH**

In addition to earning his M.D, Ph.D. and Doctorate of Medical Science, Dr. Tutelian has also achieved the rank of a Professor and has authored more than 400 scientific publications and more than 40 federal regulations. Dr. Tutelian also received the highest recognition for a Russian scientist when he was voted into the Russian Academy of Medical Sciences (RAMS), Russia's most prestigious academy, as an Academician. He now serves as the Chief Scientific Secretary of RAMS. In this position he determines what research will be done and which projects will be government funded. Currently, Dr. Tutelian also holds the positions of Director of the RAMS Institute of Nutrition, head of the Institute's enzymology laboratory and the department of Nutrition Hygiene and Toxicology of the Moscow Sechenov Medical Academy, as well as numerous other positions on the scientific and editorial boards.

Note: Dr. Tutelian receives no incentive of any kind from 4-Life Research to say this. His influence in Russia is somewhat equivalent to our FDA Director's.

"I'm a cancer physician. I primarily treat female cancer and certainly encourage my patients who are undergoing chemotherapy and radiation therapy to take transfer factor. It helps to modulate the immune system and is great for overall health. I have patients with chronic herpes infections who are taking transfer factor on a regular basis. These patients have reported a reduction in the number of outbreaks. I've also had patients with chronic yeast infections consuming transfer factor and are reporting improvement as well. Transfer factor is a science-based product with excellent data from a variety of researchers." **Dr. Duane Townsend, MD**

Dr. Townsend has had more than 32 years of distinguished experience in the medical field. He pioneered a surgical technique for the treatment of pre-malignant disease of the uterine cervix. In addition, he has authored more than 90 scientific papers in peer review journals as well as over 15 chapters in research books.

****The above individual is an unpaid member of the 4Life Medical Advisory Board.**

"I believe transfer factor is, without a doubt, the greatest discovery of the century in supporting and modulating the immune system. I believe a strengthened immune system will be the primary way to stay well in the future. This nutrient can affect the immune system like nothing else can. I sincerely believe everyone needs to consume this product."

Dr. Rob Robertson, MD [Click herefor Dr. Robertson's 3 minutes Transfer Factor Audio Message.](#)

Dr. Robertson is a former Emergency Room Physician who partnered his future with this company because of his excitement about transfer factor. He received his medical degree from the University of Louisville School of Medicine in 1974. He served as the Director of Emergency Services at Western Baptist Hospital in Paducah, KY.

****The above individual is an unpaid member of the 4Life Medical Advisory Board.**

"I have now completed a retrospective study comparing children in our practice with those who did not use transfer factor during the same period. Eighty-seven children, age 8 months through 9 years, used transfer factor. We found 74% less reported illness and 84% less reported use of antibiotics." **Dr. David Markowitz, M.D.**

Dr. Markowitz is a pediatrician in Kennebunk, ME with a patient base of 4,500 children and has served as the Senior Pediatrician in a Private Pediatric Practice for 19 years. He received his Bachelor of Science degree from the University of Rochester in New York. He received his medical degree, general Pediatric training, and Pediatric Hematology/Oncology Fellowship from the University of Connecticut School of Medicine in Farmington, Connecticut.

**The above individual is an unpaid member of the 4Life Medical Advisory Board.

"Transfer factor's are the most exciting discovery in immunology. As the 21st century unfolds, transfer factor will be one of our greatest keys to health and well being." **Dr. William Hennen, PhD**

Dr. Hennen, Vice President of Research and Development at for our company, is a biochemist with thirteen years of experience as a researcher in drug design and development. He also worked for eight years as a consultant and research director in the nutritional supplement industry.

**The above individual is a paid staff member.

"There is no other product in a nutritional substance, NOR a drug, that has this kind of power and ability to affect our immune system. With the increase of killer viruses, mutated germs, super-resistant germs, and food contaminations, our only hope and defense, must lie within our own immune system." **Dr. Darryl See, MD**

Dr. See received his degree from the University of California, Irvine. Academic appointments include: Assistant/Associate Clinical Professor of Medicine: Investigator, California Collaborative Treatment Group: and Infectious Disease Consultant, Liver Transplantation Service. He has received contracts, grants, and research awards from Pfizer Pharmaceuticals, Upjohn Pharmaceuticals, Roche Molecular Systems, Harvard Biotechnology, National Institutes of Health, Department of Defense, and more.

[View Dr. See's Curriculum Vitae](#)

"Our company has proven itself to be a company that provides sound dietary supplements, in keeping with the latest research. This commitment to providing revolutionary natural products is one that I am excited to help develop. I am particularly struck with the potential that exists for the transfer factor. transfer factor is today where vitamins and herbs were 15 years ago. What a great opportunity is in store for those who get involved now!" **Dr. Calvin McCausland.**

Dr. McCausland comes to our company with 22 years of experience in the network marketing and nutritional supplement industries. During that time, he supervised the creation or reformulation of over 350 supplements. He is an internationally known lecturer and has visited 53 countries in the world. In October 1997 Dr. McCausland became the first and only American to be elected a member and academician in the Russian Academy of Medical and Technical Science. In March of 1999 he was awarded the national Kosigen award. The award recognizes the most significant contribution that will impact the future economy of Russia in the areas of science and medicine.

**The above individual is a paid staff member.

"Transfer factor is the most exciting product for the immune system that I've seen in my eighteen years of practicing medicine. It has literally revolutionized my practice, particularly in terms of chronic diseases."

Dr. Kenneth Singleton, MD, MPH

[**The above individual is an unpaid member of the 4Life Medical Advisory Board.](#)

"The immunity provided by transfer factor is long lived and can help all ages who are suffering from a variety of ailments or those who want to stay well." **Dr. Richard Bennett, PhD**

Dr. Bennett is an Infectious Disease Microbiologist & Immunologist, who is enjoying retirement from a 21-year career with the University of California where he specialized in food and water quality and safety. He received his Doctorate in Comparative Pathology from the University of California, Davis. He has an extensive background in milk quality and disease control, water resource policy, food safety, public policy of natural resources, etc. He has also served as an advisor for the FDA and USDA.

[**The above individual is an unpaid member of the 4Life Medical Advisory Board.](#)

"The immune system is an important aspect of bringing balance to the body, and specifically, to someone who has autism. Transfer factors can be very effective because they have been shown to both boost and suppress the immune system. Because transfer factor can function as an immune system modulator, it can help to restore immune system balance in many types of clinical situations." Kenneth Bock, MD, best selling author on immune system modulation.

Kenneth Bock

Dr. Bock is a physician who is renowned for his integrated approach to health and wellness. For the past 17 years he has integrated alternative modalities with conventional medicine into what he calls Progressive Medicine. He is the co-author of two books: The Road to Immunity and Natural Relief for your Child's Asthma. Dr. Bock recently conducted an important study on the use of Transfer Factor with children who have Autism Spectrum Disorders.

[**The above individual is an unpaid member of the 4Life Medical Advisory Board.](#)

"When infants are nursed they are 17 times less likely to become seriously ill. Today we understand the science behind this dramatic display of wellness. We understand that the newborn's immune system is jump started with mom's immune history via her transfer factors. Transfer factor is our tool to jumpstart our immune systems."

Suzette Lawrence, CNM

[**The above individual is an unpaid member of the 4Life Medical Advisory Board.](#)

"As a medical professional and pharmacist, I have been exposed to a great number of medical drugs and nutrients. I am convinced that the benefits produced by transfer factor and transfer factor plus far exceed any substance that I have ever been exposed to. I have assumed the mission to take this to the world. Everyone should be on these products."

Bob Kononiuk R.Ph.

[**The above individual is an unpaid member of the 4Life Medical Advisory Board.](#)

"Transfer factor is in the same class as the most potent vitamins. When do you need it? You need it all the time. And who needs it? Actually, everyone. Not only you as an adult, but also your children and pets. And it's safe. I have not documented one single side effect related to the use of transfer factor."
Vivienne Matalon, M.D.

"In my 43 years of medical practice I have never come across any pharmaceutical or nutraceutical products like Transfer Factor that can help people to get well and stay well. Because my friends and relatives are getting positive responses from Transfer Factor products, I have committed myself to share Transfer Factor with everyone, everywhere. Most people don't realize that they can enhance their immune system by taking Transfer Factor products. I feel very strongly that everyone needs Transfer Factor products for their health and I encourage you to join with me on this exciting mission to reduce the sufferings of our fellow human beings."

C.K. 'Benny' Foo, MD

**The above individual is an unpaid member of the 4Life Medical Advisory Board.

Veterinary Medicine has been my profession and career for over 30 years. I became a large animal veterinarian because of my interests in the cattle industry. Horses and small animals comprised about 20% of my "James Harriet-like" practice. Then, after 4 years of doing what was most important to me, an allergy to cattle popped up. The symptoms were indigestion, intense itching and inflammation anytime I came in contact with the bovine species or tried to eat beef, even to the point of not tolerating dairy products. It was serious enough that I had to leave the practice that I loved and change directions. I returned to Colorado State University, my alma mater, and studied pathology in graduate school. I returned to practice, which at first was one hundred percent small animal. I learned not to make "never" claims because I had told my classmates "I will never spend my time working on poodles". Having recovered from the cattle allergies, I began to once again do some large animal practice.

The road to recovery and healing was long-term which included digging into the literature and finding dietary and supplement applications which worked. It took about seven years to total recovery. My practice interests became more and more, disease prevention and wellness. I saw how nutrition made a great difference and was often more effective than traditional medical approaches. Then I was introduced to Transfer Factor, developed by 4-Life Research, from a colleague. I have found that the results of using these products did more in a few hours or a few days than traditional medicine alone. This became the next step for me in working in nutrition, disease prevention and wellness.

A couple of my colleagues presented these products at the American Association of Equine Practitioners meeting in Texas. There was an opportunity here, I found, not only to build a consultation type practice but also to develop some very good income. 4-Life Research is a very impressive and professional company. They developed Immune System products first for humans and then for animals. I found they were very effective and also offered an income opportunity.

Ken Hansen, D.V.M.

OTHER TESTIMONIES

1. "My mum is 89 years young and suffers from ischaemic heart disease and congestive cardiac failure. Her main complaints were severe shortness of breath on mild exertion, and coughing. She had to be wheeled around whenever we took her for an outing. I took two bottles of targeted transfer factors home to Australia from the 2002 4Life International Convention and started my mum on 2 capsules twice a day. After only three weeks she noticed some improvement in her breathing. After only 5 weeks she said the new capsules we brought back were #1, indicating with her right thumb up. Now she is able to walk further with much less shortness of breath. In mid-October we took her to Werribee Zoo and brought the wheel chair along for her to use. After a short journey in the wheel chair she decided to walk by herself. We tried to dissuade her and told her that the walk would be too much for her heart. She insisted, and so we relented and let her push the wheelchair around the zoo. She completed the walk around the zoo with no shortness of breath! She has derived other benefits from taking targeted transfer factors, both her appetite and weight have increased! We are extremely happy targeted transfer factors has helped her. We strongly recommend targeted transfer factors for anyone with cardiovascular problems." **C.K. 'Benny' Foo, MD**

Disclaimer: Neither Mike Akins nor Professional Networkers can confirm this testimony as being truthful or accurate. At this time we do not have enough scientific evidence, according to FDA guidelines, to imply that these results are typical. We suggest that you do not consider these results typical. If you suffer from an illness it is our suggestion that you consult a medical doctor and please do not replace medication for the use of our product without being under the care of a medical professional.

2. "In October 2002 I had a C-reactive Protein test (CRP) done to measure the level of inflammation in my artery walls after having read a number of articles indicating this type of inflammation as being the root cause of heart attacks. My CRP reading was 7.9, with 8.7 being about the highest and worst one can have. This test showed I was at very high risk of having a heart attack. One physician I shared this with commented, in front of a large audience, that if my CRP reading stayed at that level, I was virtually guaranteed to have a heart attack. From the day I received my CRP test results, to this day, I have consumed 4 targeted transfer factors daily. At the end of February, 2003, I had the CRP level checked again. In just four short months of consuming targeted transfer factors, I am now close to having the BEST level one could have, 1.1. The lowest and best reading on the chart is 1.0! I believe our targeted transfer factors product most likely saved my life." **Richard Helgeland, Washington**

3. "Originally Cynthia was taken to the emergency room in very serious condition and then she was placed in ICU, where she has remained since then. The head physician didn't see how she could live. **The bacteria had ravaged her muscles, liver, pancreas, and kidneys.** For at least ten days Cynthia has suffered from kidney failure gaining over 30 pounds since she could not eliminate liquid. They used furosemide to move some of the liquid through her, but the kidneys were not purifying. The kidney marker was up to 12+ and the physician didn't believe there was much chance that the kidneys would ever function again. We talked the physician into using transfer factors after it didn't look like the antibiotics were going to do the job and seemed that the kidneys were to far gone. I am very happy to report that we got word from the hospital today 13 days later that Cynthia is be released tomorrow from the hospital. One of the nurses said, "she had never seen a patient come back from the condition that Cynthia was in, it must have been divine intervention." Of course we cannot know exactly what the total answer was that saved Cynthia's life. Cynthia has been ill for 17 years. Before she had this last event, her body weight was down to 89 pounds so when she was hit by this ravaging infection it was considerably more dangerous. The doctors shared no hope that she

could recover, actually just the opposite. Today she is laughing, joking and excited about going home. Was it transfer factors? Was it the wonderful care of the doctors and nurses? Was it prayer? Maybe all three. We are finding over and over again that wonderful things can happen when your immune system is filled with intelligence and working at top efficiency.

Thanks for all of your prayers." **Kay Bergen for Cynthia Bergen**

5. "My granddaughter is 2 and she had the **flu virus**. She was on four different kinds of antibiotics for 4 months and she was not getting better. So I gave her three transfer factors in the morning and three transfer factors at night. The next morning the sniffles had started to go away and within 4 or 5 days her symptoms completely cleared up. My husband and I have also had wonderful success with allergies." **Sue H.**

6. "Last Wednesday I started to get another **ear infection** in my left ear. I get these stupid things about 4 or 5 times a year and they usually send me to the nearest clinic or emergency room about midnight. It seems to always happen at night and/or on a weekend. By 11P.M. the pain was going down my neck. Not good. When that happens I know I'm really "in for it" and am headed to the clinic - fast. It usually takes 2 to 3 days for the antibiotics they give me to get rid of it when it gets to this stage. I decided to "test" my new enhanced transfer factors with me as the guinea pig. I took 4 about 11Pm, got up at 3AM and took 4 more, got up at 7AM and took 4 more, got up at 10:30AM and took 4 more. Now that's probably way too much but I was hurting and didn't want to mess around. The pain began to subside, instead of increasing, by the time I got up at 7AM. It was much better by around 2PM Thursday afternoon." **Jim Clary**

8. "My mother experienced a very excruciating death from an aggressive form of **ovarian cancer.** I was only in my early teens and she was 32 years old. Her sister died of this cancer. We have a very strong genetic tendency toward cancer. I have feared this all of my life. In December of 2000 I had a tumor 10+inches in diameter removed and immediately went on **chemotherapy.** Since my mother was a vitamin freak and still died, I wasn't that big on nutrition. My dad talked me into going on enhanced transfer factors. My oncologist was very impressed with how strong my immune system stayed throughout my chemotherapy. I know there is not way to scientifically prove it, but I really feel that my strengthened immune system made the difference between what happened to my mother and her sister, and myself. Now in February of 2001 I am alive and well." **Angelia Howard**

9. "I have **athyroid goiter** and have been on medication for many years to control its size. Even with the medication, I have always been able to see or feel it. On the fourth day after starting transfer factors, I noticed that the enlargement (goiter) on my neck was smaller. After using transfer factors for about ten days, my goiter had noticeably improved. I hadn't even thought transfer factors could help. But I'm still feeling great." **Gaye L.**

10. "My partner Barbara and I have worked for 4 years with herbs & vitamins to restore my health. Transfer factors have done that in less than 3 months! Over the past 4 years, I have experienced **chronic bronchitis, sinus infections,** and other conditions. I take every herb or vitamin I can get a hold of to build up my immune system. In the last 6 months, I have been on antibiotics 4-6 times with sinus infections. I started taking 6-9 transfer factors a day. Within 3 days I started breathing better than I had for 4 years. Transfer factors are the only thing that has been able to bring my energy level back up to where it used to be." **Julie C.**

15. "I was cutting some chicken and I **cut my finger**, and I cut it very badly where it did need even a couple of stitches, but I just did a butterfly stitch myself. In the middle of the night I woke up in stabbing pain, went downstairs, and saw that the finger was about two times its normal size, very well **infected and inflamed**. I took transfer factors. I did it again in the morning and then went to work and came home, and when I unwrapped that finger it was rather amazing. It's almost unbelievable for me to say that, in fact, the finger was reduced in its size, the inflammation had gone down, it was obviously doing better, then within the next couple of days it entirely cleared up. Transfer factors are the answer and I'm very, very grateful for this company and for the doctors who have done the studies and research behind it." **June F.**

16. "I'm almost embarrassed to say I was so skeptical it took me three months to listen to what transfer factors would do for me. But I had a **very badskin condition** on my chin and I had spent thousands of dollars going from doctor to doctor and they literally could not correct it. I tried every medication you could think of and they just simply gave up. Well it was really upsetting to me, as you can imagine. I finally gave in and I tried transfer factors internally and even topically. Within about 12 hours for the first time, it began helping. My face is practically

back to normal now. I'm just so thankful for the product." **Bonnie T.**

20. "My daughter suffered from serious sinus problems and **asthma**. Having provided the genes for her condition (I too am asthmatic) I have felts pangs of guilt knowing that all my training could not stop the common cold virus from rendering Leena helplessly gasping for air a few hours after each infection. Her mother (a pediatric nurse) and I tried every prescription and alternative therapy known, without success. Helplessly we would stand by the bedside offering repeated breathing therapy with slow if any progress. In the local Children's hospital we agonized, like any parents, over each breath our little girl took. In our home viruses can mean colds and "colds always mean asthma!" With the onset of one particularly virulent head cold, we tried transfer factors, a product I felt, theoretically, might work. After several doses we couldn't believe how quickly our daughter's condition improved. Now taking transfer factors before a bad cold, she remains well. Thanks to transfer factors we regained a normal child. Now we all use transfer factors regularly and are enjoying the best health we have ever had."

21. "Some interesting observations from 4-5 kids with **autism** in our practice. All were started on transfer factors as a means to boost their immune system and hopefully keep them healthier. Well, that worked! But interestingly, all have shown better communication skills, better interactive skills, and less self-stimulatory behavior. Parents are delighted. Dr. Ken Boch in NY has seen similar observations. Amazing what a boosted immune system can do."

David Markowitz, M.D.

22. "I believe I owe a sincere thank you to 4Life, for marketing our wonderful Transfer Factor product. I say that because, through the use of Transfer Factor, I have experienced a remarkable turn around regarding a serious health situation. A brief history of that health issue is as follows. In the fall of the year 2000, I noticed my feet were unusually warm and therefore contacted my doctor to discuss that situation. My description did not cause him concern, and basically he merely said if I noticed a significant change, bring him up to date on the circumstances. Unfortunately the change was so subtle, I was not aware, the change had been on going, until the month of May 2001. I had seriously stubbed my toe, and did not feel pain. Being concerned, I pressed a flat-headed dental tool on the bottom of my foot to get an indication of the lack of sensitivity in my feet. I didn't realize how hard I was pressing, and I actually punctured my foot without experiencing any pain. Over a period of about 45 days, this health situation was examination by 3 doctors, one being a Neurologist. Their prognosis, based upon physical examinations and various blood tests, (including the ANA Anti-nuclear Antibody test), was that I have an autoimmune problem called Peripheral Neuropathy.

I was advised I should expect this condition will continue to worsen, and I will soon begin to experience an onset of pain. Worse yet, the Neurologist advised me I could expect to experience the conditions of Peripheral Neuropathy for the rest of my life. I was told there is no cure at this point in time, and at some point in the future even the strongest of pain medication currently known, would not be able to neutralize the pain I will experience..

By the end of July, the numbness had expanded from the ball of my feet my toes to all of both of my feet and several inches above both of my ankles. Also the pain was starting to kick in. I decided not to take the pain medication because I didn't want to mask the improvement I hoped to experience by consuming a large daily amount of Transfer Factor.

I began taking 9 TF's a day during the time I attended our 2001 4-Life Convention. Within 24 hours I started to experience a modest reduction of pain. The next day I increased the quantity to 18 (6 capsules, 3 times per day). After about 5 days of taking increased amount of TF, the severe burning pain had been reduced by about 75%. The area of numbness also began to reduce when I increase the amount of TF to 24 capsules a day. Within about 10 days of the higher dosage, the numbness had receded all the way down to the top of my foot, until reaching base of my toes. By the end of October about 90% of the numbness was eliminated. By December I reduced the quantity of TF to 18 per day and continued to experience success. My goal is to eventually reduce this quantity to a 6 capsule per day maintenance level. Since March of 2003 I have dropped the number of Transfer Factors I consume each day to a quantity of 14. My improvement is so significant, I believe if this was the extent of my Neuropathy condition from the beginning, I wouldn't even had realized I had a problem.

There is no question in my mind, it is the consumption of Transfer Factor that has eliminated the Peripheral Neuropathy symptoms from my day to day experience. An indication as to how much of a contribution TF has made in my recovery process, was made crystal clear to me last year, when in just one day I overlooked taking my normal quantity of TF. Stiffness returned to my feet, as did a considerable amount of pain related discomfort. It took me a full 24 hours before I again experience the comfort of the degree of progress I had previously attained. During the first year, if I delayed taking one of my 3 doses, (or as I experienced improvement one of my 2 daily doses of TF) by as little as ½ hour I quickly noticed the building of pain/numbness. Now I can accidentally miss and delay taking one of my 2 daily doses by as much as 7 hours, before I feel the warming of my feet.

That is SO SIGNIFICANTLY DIFFERENT than what the no hope of relief the doctors had given me. My quality of life has improved significantly beyond even my most optimist hopes and dreams. I don't believe there is any specific numerical quantity that would provide the same results for all. Each of our bodies and health situations are unique. I just kept adjusting the amount of TF that I consumed until I recognized a change.

I am sure glad I considered the possibility of the results I achieved. I don't even want to think what I would be experiencing if I hadn't. My health future (and current condition) has dramatically changed.

Sincerely,
Richard

Helgeland

23. "Transfer factor and Fibro AMJ have really made a difference in my life. After a bout with polio when I was 28, I have suffered from spasms and pain in my neck, back, and shoulders. I've suffered bipolar problems, panic attacks, and migraines since I was a teenager. My **migraines** have been chronic for the last 16 years and almost constant. I have **multiple sclerosis**. I have days of partial paralysis and extreme flu-like pains. Since I started both of these products a little over four weeks ago, I find that I have had more good days. I still have bad days, but they have not been as often or lasted as long. During my good days, I feel that I have more strength than I had before."

24. "I suffered with severe **allergy** symptoms for 8 years. Anytime there was a high pollen count I would experience swelling, itchy, red eyes, and terrible sneezing fits. I originally began taking transfer factors to boost my immune system because I had an infection. Transfer factors also balance the immune system. I took 15 per day for the first three days, then 7 per day after that. Within 10 days, I felt great. I have not experienced symptoms from my allergies for 15 months. I maintain a dose of only three per day."

25. "I see tremendous, results in my personal life. Quite particularly, I have a little boy who is eight years old. He is an asthmatic, and just recently had an asthmatic attack, it was lasting for awhile, and when you have that much mucus there is a tendency of overgrowth of bacteria and doctors right away, of course, call in the antibiotic. I chose to use transfer factors. There were tremendous and rather astoundingly quick results in the matter of a few days where I could see that he was very well clearing up. When bacteria is present with an asthmatic there is some nasty color to the mucous. That was just beginning to clear up and I was overjoyed. This is something that is cutting edge, extremely exciting, and something that I would even love to thank God for. So that was one of my personal experiences with my son and something very close to my heart."

27. "When I first joined 4 Life I started on transfer factors and Fibro AMJ Day and Nighttime since I had a few **arthritic aches** and was having **trouble sleeping** at night. My first noticeable result was to straighten out my problems sleeping at night. That was over 2 years ago and I've continued on the Fibro AMJ. A couple of nights ago my bedtime routine was interrupted and when I actually started for bed I could not remember for sure if I had already taken my Fibro AMJ Nighttime. Thinking it would make an interesting test, I went to bed without taking any. About 3AM the test was over! I had no idea that I could ache in so many places at once. The Fibro AMJ Nighttime has been doing a great job for me! I don't think I'll have trouble remembering to take it again."

28. "I was officially diagnosed with **Poly Rheumatoid Arthritis** on 20th of October 1999. In February 2000, I was retrenched due to inability to work, needing gutter crutches just to move around even slowly. I was receiving Cortisone injections nearly every six weeks to both ankles and shoulders as well as the occasional injection to Knees and/or wrists. One even being carted off to hospital in the ambulance due to an attack of Pericondritis (the fluid sac that surrounds the heart, similar to the fluid sac between the joints became inflamed, and is associated to my RA), this swelling basically caused my lungs to be compressed between my heart and sternum causing difficulty in breathing. 2000 also saw me diagnosed with **Osteo-Arthritis** of the spine and hips, as well as **Fibromyalgia**. During this period I was placed on ever increasingly stronger drugs to bring the disease under control. I also take nutritional supplements including Calcium and Vitamin D (to help body in absorbing the Calcium). In May 2001 I suffered a severe flu infection, causing me severe attacks of coughing that would last up to an hour in duration (this even though I'd had the flu vaccination due to my lower immunity to infections because of medication). This flu lasted for 4 weeks and by the 5th week had begun to subside when my left side began hurting and grew steadily worse. My Next appointment at the RA clinic, the Doctor had me undergo a CAT Scan, to ensure pain in my side was not caused by damage to Kidney, Liver, Spleen, etc. The Cat Scan revealed that organs were Ok but I had fractured the lower two ribs on left side due to my coughing attacks. I felt as if there was nothing anyone could do to give me relief that wouldn't end up giving me even worse medical problems than I already suffered. My friend Mal introduced me to a product called transfer factors, which is neither a herbal remedy nor nutritional supplement, but appeared to give tremendous results to people suffering from my condition. Mal in his keenness to help me, managed to obtain some transfer factors and Fibro AMJ from New Zealand. I began using transfer factors and Fibro AMJ, which I understand from 50 years of transfer factors research, has the capacity to modulate my Immune System. If you suffer from some sort of disease / allergy (or find that your forever catching something), or you know someone who does, give serious thought to these products. I'll gladly keep you informed of my progress with these products."

31. "I've been taking the company products for about nine months now. And I started them with the goal of reversing the **Fibromyalgia** symptoms that I've suffered for about twenty years. I've tried a lot of different things over the last twenty years and really had learned to cope with the condition until about two years ago. Then at that time I really got into a downward spiral that just never seemed to stop. It included **chronic pain, and fatigue, and sleepless nights and depression** and so forth. I started on the products, Fibro AMJ Complete Pack and Choice 50, and in about two weeks. I was sleeping better. After about two months on the product, I felt like I had just walked out of a tunnel into the light of day. After three months I reached a level, I would say, of 95 percent symptom free, or status of 95 percent symptom free living. I've really enjoyed that level of health for the last six months. I really do appreciate that, and I really am thankful to our company for that opportunity to, to reverse the symptoms of Fibromyalgia. I've also been able to help a lot of people with that condition."

32. "I have **fibromyalgia and MS**. I just have been in lots and lots of pain for years. It started with migraines when I was younger and then I had polio when I was 28. From that time on, the pain and the chronic migraines just got worse and worse. Finally last year I ended up in bed and felt like I was a piece of cooked spaghetti because I just lost all my strength from my neck down. I had used a lot of herbs. I had been to a lot of doctors, and had used alternative remedies for years. Then I had a friend that talked me into using transfer factors rather, and I started out with four or five a day and worked up to eight. Then Dr. Robertson told me that I needed to get on ten or more a day. I started out feeling just a little bit more strength if I lay in bed. I'd get a little bit stronger and a little bit stronger. Little by little I got stronger and then I had more time between my episodes. Finally after about two and a half months on the product, I got to feeling really, really good and didn't have a lot of episodes until I went outside and started pulling weeds. That kind of knocked me down again for a day. I have been using at least eight transfer factors capsules a day and for the pain I've been using the Fibro AMJ which has just been fantastic. Whenever I start feeling the pain come on, I use that. I take two in the morning and two in the afternoon and then whatever else I need. The Fibro AMJ nighttime, I use that and it has helped because my left side would hurt, or my legs would twitch, or whatever. It has been just fantastic. Then Dr. Hennen and I got talking after the enhanced transfer factors came out. I am still using both the transfer factors and the enhanced transfer factors. I'm just doing great. In fact I'm out jumping on the trampoline with the grandkids sometimes. It's just been fantastic, and I've been able to work this business now and it's just fun."

37. "My daughter, Paige, recently received a **1.5 inch cut** along the side of her big toe. She received stitches and had quite a bit of swelling. We were treating it with your typical neosporin and bandaids, but after a few days it seemed that it was not healing properly. There were areas of the cut that were absolutely not getting better. My friend had previously been using tf RenewAll and asked me if I would like to use it for my daughter's toe. I was surprised and delighted, that after only two days of use with tf RenewAll, her wound had completely closed up, and looked very well. We truly have a great line of products with 4Life."

MORE TESTIMONIES

Choice 50 & 4Life Transfer Factor

I am 64 years old and a Registered Nurse. I have quite a respect for medications, but I chose to focus on taking natural supplements to help my body support its immune system. During the past seven months I've taken Choice 50 and 4Life Transfer Factor every day. It's a dynamic combination that's improved my quality of life immensely. I sleep better and feel rested when I wake up. Many people, like me, prefer to enjoy good health and avoid the chronic problems that seem to plague many of us as the years go by.

4Life Transfer Factor Plus

I was in an accident in May of 2003 and was taken to a hospital. I am a diabetic so there were concerns about healing the lacerations on my face and hands. The doctor gave me an ointment to apply on the lacerations when I got home. Since I was already taking 4Life Transfer Factor Plus I increased the amount and made a paste with water and 4Life Transfer Factor and applied it to the lacerations on my face and one hand. I used the ointment the doctor gave me for the other hand. I applied the paste twice a day and after eleven days I noticed that my face and one hand were much improved. The hand that had not had the Transfer Factor paste applied to was healing, but not to the degree of the other. I know that these products supported my immune system so it could help my skin recover and heal. 4Life Transfer Factor and Transfer Factor Plus are incredible products.

4Life Transfer Factor Advanced Formula

Upon returning from a week's business trip, I found my nine-month old kitty, Hemingway, just skin and bones. Something seemed to have happened to his feeding schedule while I was away, so I gave him lots of food, which he constantly cried for! But, after two weeks, he hadn't gained any weight back. He just sat and stared, no energy or personality. A friend had told me about 4Life Transfer Factor Advanced Formula and I decided to try it for my kitty. I began giving Hemingway two capsules a day. Transfer Factor Advanced Formula seems to be supporting his immune system because over the past two months he has regained all his weight, eats two regular meals with a night-time snack, plays with the other cat and has normal stools. When I called the vet to report his progress, the vet said, "Keep doing what you're doing". Thank you, Transfer Factor!"

4Life Transfer Factor

I'm almost embarrassed to say I was so skeptical that it took me three months to listen to what 4Life Transfer Factor could do for me. I had a very bad skin condition on my face and I had spent thousands of dollars going from doctor to doctor and they could not provide any results. As you can imagine, it was really upsetting. I finally tried taking Transfer Factor orally and even topically with 4Life Transfer Factor RenewAll. I began noticing a difference in the appearance of my skin. 4Life Transfer Factor seems to be supporting my immune system in a way that nothing else had been able to do. I'm just so thankful for these products.

Shape-Fast Ultra

For eight years, I kept gaining weight after my children were born and all I wanted to do was sleep all the time. Bending over to pick up my kids' toys or clothes was hard for me. I never wanted to go anywhere because I didn't want anyone to see how bad I looked. I wasn't happy and I didn't like myself very much anymore. I spent hundreds of dollars on weight loss programs, exercise equipment, books and videos. I started all kinds of diets and kept telling myself that this time would be different, but I couldn't stick with anything. Then I tried Fibre System Plus and Shape Fast Ultra. After 1 1/2 months, I've been able to lose weight. Finally, I have more energy and feel much better about myself. Thanks 4Life!

RiteStart

About two months ago, I was juggling two jobs for nine months. In addition to that, I have three boys. I tried to provide them with good nutritious food, so I cooked for them every night between one job and another. I was so busy! To be able to get going and keep going, I was armed with RiteStart for women. This product is great! I consider myself a very healthy woman. Without adequate sleep during those nine months, I sometimes had early stage symptoms of a cold like a sore throat, but never truly experienced a full blown cold. Thanks to RiteStart, I maintained my health throughout those months!

RiteStart

I am so pleased with 4Life for providing complete dietary supplementation in RiteStart for Men. It is very important to me to get the essential vitamins and minerals daily, but in RiteStart I get the added bonuses of BioEFA, 4Life Transfer Factor Plus and unique antioxidant and male blends to meet my needs. One special experience I noticed with RiteStart is that when I first began using it, I had an increase in energy and alertness, something I hadn't noticed with my previous multivitamin. When I recognized the boost in energy, I knew RiteStart would continue to be an instrumental part of my day.

Fibro AMJ System & Choice 50

I started taking 4Life Products to help with the Fibromyalgia symptoms I have been suffering with for about twenty years. I've tried a lot of different things and had learned to just cope with the condition. At one point I got into a downward spiral that just never seemed to stop. It included chronic pain and fatigue, sleepless nights and depression. I started on 4Life's Fibro AMJ System, along with Choice 50. Eventually I started noticing that I began having more regular sleeping patterns and I gradually started noticing that I felt better, almost as though. "I had just walked out of a tunnel into the light of day." I've continued to enjoy this new level of well-being. I really am thankful to 4Life Research for this life-changing opportunity.

tf Age Defying Effects

I have never written to a company regarding a product before, but I had to let you know how much I love your tf Age Defying Effects skin products. I truly think I look younger and I feel younger too. The night Renewing Serum is phenomenal. I even use it during the day. It seems to evaporate as you apply it, but you are well aware that something wonderful is happening to your face. These are wonderful products.

Jo W. 4Life Product User
Utah

tf Age Defying Effects

I was introduced to tf Age Defying Effects through my sister and nephew. My sister had been using it and I could see the difference it was making on her skin. I am a letter carrier in Wyoming which means I work in the summer in hot, dry weather and in the winter when it gets below zero. I have been worried about my skin for a very long time and have used a lot of products to protect it. The tf Age Defying Effects system has been absolutely wonderful; my skin has never felt or looked better. It is so soft and the wrinkles around my eyes seem much less noticeable. You see a lot of products on TV and on the shelves today advertising younger looking skin, but seldom do you find a product that really works. These products truly do just that for me and at age 50 I get compliments that I look so much younger. It is so nice to feel good about myself and have someone notice. I want 4Life to know how much I love their products. I have been telling everyone who notices about the tf Age Defying Effects system.
