## A Personal Testimonial

Judy on [June 7, 2013](#) — [Leave a Comment](#)

I have been really paying attention to all the results and the remarks by the health industry regarding inflammation in the body and how inflammation is responsible for **all** diseases. There has been proof that cancer cells(which we all house) are dispelled and dispersed by the ingestion of antioxidants and anti-inflammatory products.

There is no better product for this than Jusuru...although anti-inflammatory results were not the primary reason for the development of Jusuru (bone and joint health were) the addition of the super fruits has been the cause of these great results. My neighbor who has MS recently had an endoscopy and her stomach ulcers have disappeared. She credits Jusuru with these results and has issued a testimonial to that.
