RESPIRATORY

1. "I have a granddaughter that's fifteen months old. She's been sick for about three months with a cough and a lot of congestion. She has had stomach flu off and on. We've tried everything. We've taken her to the doctors without success. We finally gave her transfer factors, and within a week she was better." Patricia Tavis

2. "Just before Christmas I had run out of all my usual nutritional supplements and was wearing myself out with holiday preparations. I eventually came down with a sore throat and chest cold that led into a bronchial infection with colored mucous. My chest really hurt and I was coughing stuff up a lot. I was about ready to get some antibiotics or something, when a bright yellow postcard appeared in the mail. I saw the words "transfer factors" on it. I had heard of transfer factors before but had no idea what they were. I was curious, so I called the hotline and listened and then ordered free information. I ordered transfer factors immediately upon reading the information that was sent to me. Within 24 hours I was feeling 90% better and in 48 hours you would have never known I had been ill. My son was starting to cough and his nose was running so I began him on the transfer factors. He never did get sick, despite the holiday indulgences and lack of sleep. When my dad arrived for the holidays he informed me his ulcer had been bothering him for quite some time and he wasn't feeling all that great. I gave him a couple of transfer factors 3 different times and by the second day he said to me, "I haven't felt this good in months! What is this stuff?" My husband has had an enlarged prostate for around 5 years. He has had frequent and painful urination with urgency. His PSA has stayed normal, but we are nevertheless concerned. After all the holiday treats and lack of sleep, his prostate condition worsened more than ever. He was in great pain and would spend 20 minutes urinating. He began taking transfer factors and within 24 hours was getting some slight relief from the symptoms, and he knew he was going in the right direction. With each passing day he has improved tremendously and now after 2 weeks, he feels like a new man. Urination is painless, steady and he sleeps through the night. He hasn't felt this good in 5 years. We are hoping for a complete normalization of this 5 year condition." Debra Jenkins

3. "I have some major health concerns and I wondered how I would know when and actually if transfer factors were kicking in. It didn't take long. The day my first order from this company came, I had a "shoot me" of a cold blossoming. The thing is my colds always turn in to bronchitis. I was really prepared for the initial feat. I started the transfer factors and three days later, every cough and snuffle was absolutely gone and I was totally amazed. The other thing that happened was, I had a hole in my face, and now, I know this sounds strange, but it's the best way I can describe what a cosmetologist did to my cheek, 23 years ago.

About every two weeks, I would have to do my ritual cleaning and poking around so the spot wouldn't get infected. It was actually a 5mm hole. Well, about two weeks ago I got all of my stuff together getting ready for my ritual and I got my magnifying mirror and know what, that hole was gone. This is after twenty-three years. That hole was gone! You know, I always was one who caught every bug coming down the tide. I realize now that it wasn't that I was born under some sort of a cloud. Now I see and now I know it was because my immune system just never had the "umph" to protect me effectively. Now, this is the first time I am really hopeful that one day I am going to be able to say that my long standing health issues are finally dissolved. And until then, I'm going to tell the rest of the world about 4Life and transfer factors." Rebecca N.

4. "For the past fifteen years I have suffered from chronic bronchitis, regular sinus infections, and severe allergies. I suffered from fatigue, migraine headaches, joint pain, and an overall weakening. After eight months transfer factors, I am a new person. I feel like transfer factors saved my life. I tried every nutrient that I could find, but only transfer factors made the difference." Naomi Jackson, Kansas

5. "I am so thankful for enhanced transfer factors. I have suffered from sinus infections and bronchitis for at least a dozen years. I have been on antibiotics and taken every nutrient I could find. I received a postcard in the mail and read a Naomi's testimony. I couldn't wait to try this product. After I received my product it wasn't more than a couple weeks before I was feeling better. Now for a couple months, I have felt better than I had in many years." Marsha Miles

6. "I am a registered nurse, 64 years old and respect what medications can do. However, prescriptions were not helping my severe allergies or my psoriasis. Allergic episodes usually resulted in a mega-infection of bronchitis or a sinus infection. My psoriasis did not respond to either of many medications. Both of these health problems are in the auto-immune category. I included 4 capsules of Choice 50 and 3 transfer factors in my daily supplements. I feel great now! Choice 50 and transfer factors are a dynamic combination that have truly improved the quality of life." Doreen Lassiter

7. "I have had bronchitis for some time. I have taken two bouts of antibiotics. After one week on transfer factors the symptoms were much better. I started to come down with a cold. I loaded up on transfer factors, the next day I had no symptoms. I am very impressed with this product. The science is solid." Fred Moore

8. "I have suffered for several years from rheumatoid arthritis, allergies, fatigue, chronic bronchitis, weakness in my muscles, and headaches. After being on transfer factors and enhanced transfer factors six months I have experienced a tremendous recovery. My allergies are barely noticeable, I haven't had a case of bronchitis for several months, my headaches are gone, I feel strength returning to my muscles, my rheumatoid arthritis doesn't hurt and looks a bit better, and I am full of energy. I have taken noni, ambrotose, microhydrin, MGN-3, Ag-immune, Biomune, and the list goes on. None of these products made much of a difference. When I was approached by a company distributor I was very negative about it. They offered my first bottle free until I checked it out to see if it would work. WOW! I am now a believer there is nothing like transfer factors." George Cole
