Another great Zeal testimony thank you Patty for sharing your testimony .
Patty Anderson writes -
"Great news for me today! One year ago, I was on insulin therapy for diabetes and my cholesterol and triglycerides were still too high. In February of this year, I took the Zeal for Life Challen...ge. I began taking this amazing wellness product every morning. In May, with my doctor's permission, I stopped my insulin therapy. Today, my average blood sugar is in the "normal" range according to the ADA! I am so excited. Giving yourself injections 1-3 times per day is no fun. Zeal is working for me and it is blessing to thousands of others. If I had my way, no one that I care about would be without this great product."
