This stuff is seriously AMAZING!!! My wife has really bad Arthritis in both of her knees. She goes through a cycle of it swelling once a week. She's tried other joint supplements and prescriptions and found we were spending money on crap that just wasn't working. She's been taking Arbonne Joint Support for 1 week and isn't getting her regular flare up and her knees aren't popping like they normally do. If you have any problems with your joints I strongly recommend that you try this joint supplement.
