## Testimonials

This testimonials will be updated from time to time.

"My mom was recently diagnosed bilateral breast cancer (both breasts) on 16 Oct 2012 and went for bilateral mastectomy (remove her whole two breasts) on the next day. She has to undergo 15 cycles of radiotherapy treatment at her chest area (28 Nov 2012 - 14 Dec 2012). Before she starts taking Stemtech, she experienced tightness at her chest and having trouble to sleep at night. After taking Stemtech on her 9th cycle (6 Dec 2012), she feels much better. There's no more chest tightness, no pain in the morning and she has a good night sleep until now. On 28 December was her follow up with the doctor after the radiotherapy treatment. Even the doctor was surprised to see how healthy my mom is and the physical examination proves it."

Masrina | Bandar Indera Mahkota, Kuantan

"My 4 year old son is suffering from eczema since he was born and he is a picky eater. I have tried almost everything to ease and cure his eczema. After knowing the AFA Extract is organic algae based and halal, I give him one capsule daily hoping to help with his eczema. After a month consuming AFA Extract, the eczema and scratching has reduced dramatically. Now, I'm confident and no hesitation to introduce AFA Extract to others."

Rokiah | Inderapura, Kuantan

"I started taking Stemtech AFA Extract on 25 Nov 2012 with 3 capsules in one intake. Since there are no changes in my body after 3 weeks, I decided to increase my dosage to 3 capsules twice daily. My morning sinus has gone a few days later. Now, Stemtech AFA Extract is my daily supplement."

Amlil | Bandar Indera Mahkota, Kuantan

"Three years ago, my husbands' thumb was caught in a big door until it has lost it's function. There's no improvement in spite of the hospital treatment and we almost give up. It's unbelievable that after 2 weeks consuming the Stemtech AFA Extract, the new nails are growing. Surely the stem cells are doing their job."

Safnaz | Sg Karang, Kuantan

"My father had a stroke on 26 November 2012. He is paralyses on his right body. He couldn't walk or even do thing on himself unaided. He is practically on wheel chair all the time. My sister-in-law introduced Stemtech AFA Extract and I gave to my father a week later. He consumes 3 capsules twice daily. The latest improvement reported on 4 January 2013 is that my father has being able to pull hand break of the wheel chair using his right hand. He could lift his leg when walking compared to dragging when he's first attack. In shaa Allah, he will be healthy again when we know what AFA do to our health."

Azlihanor | Melaka

"My eyes are very sensitive to the sunlight. It gets watery. That's the reason why I use transition glasses that turns dark automatically when it hits the sunlight. However, the transition glasses doesn't work in the car. I need to have my clip-on to drive. So, it happens that I left my clip-on in my husbands car. I've been driving to work for two days without it. I just realized that after driving home from work in this hot afternoon, my eyes were not watery. After thinking back, I did not do anything out of my norm except that I consume AFA."

Masrina | Bandar Indera Mahkota, Kuantan

"I was suffering from severe migraine headache and constipation and my friend introduced me to Stemtech AFA Extract. I consumed 3 capsules daily during the first week. And what amazed me was that my migraine and constipation were gone within that 1 week. Thank you to Stemtech and thank you my friend..."

Azizah | Bandar Indera Mahkota, Kuantan
