So the doctor says congratulations, you are cancer free. What are you going to do to continue the fight against cancer. It's about nutrition. RBC Life Science has the cancer fighting nutritional products to raise the bar on your battle against cancer. Here are the some of the nutritional supplements that cancer does not like. For starters...VitAloe, Microhydrin, Stem-Kine, Spirulina, OliViva, MicroBrite Tooth Powder, Aloemannan, Green Phyto Power, MSM with -- Microhydrin, HydraCel (4 oz), I.Q. Omega Defense and a few others. I would take these before and during the nuclear bombardment that folks go thru. The info about each of these supplements can be viewed here. 839980.rbclife.com
