We all know that BALANCE in Life is important in many ways!

Diet is one of them... Did you know that one of the MOST critical things to balance inside your body are the different FATS you consume! Here's why:

Omega 6 Fats (ex: Vegetable Oils) -> Inflammatory Prostaglandins
 Omega 3 Fats (ex: Fish Oils) -> Anti-Inflammatory Prostaglandins

To much Omega 6 = Inflammation!

FACT: Inflammation has been linked to almost every major degenerative disease (Heart Disease, Cancer, etc...)

FACT: 95% of Americans tested are OUT OF BALANCE!

FACT: the Average American ratio of Omega6 to Omega 3 is 25:1

FACT: No standard Dr. Ordered Blood Test will show you your ratio

FACT: Taking Fish Oil Supplements is like shooting in the dark!

FACT: 80%+ Store Bought Fish Oil Caps are rancid in the bottle

How much fish oil should you take? Guessing could also cost you more then you need to spend! and worse, guessing could leave you with still a bad ratio and a false sense of health!

Why not be 100% sure you are getting the right amount!

Take a ZinZino Balance Test and use their High Quality BalanceOils for just 5 Months and you will See and Feel the Results!

** A second Balance Test is done at 120 days to prove and show you the benefit of BEING IN BALANCE!

When is the last time you took any supplement and were able to do a before and after test to prove it was "actually doing anything!"

Message me and I will be glad to help you achieve BALANCE!

** a Sample Test Results report is available upon request
