Angela Brady

April 30, 2012

Ok...confession time! Before starting Isagenix, I had issues with high cholesterol, chronic gastritis, acid reflux, ulcers, IBS, was on B12 shots, 4000 IUs of vitamin D every day, on hormone patches, anti-depressants (prozac) and basically not very healthy at ALL! In the first week of Isagenix I stopped taking ALL of these meds...My doc tested me for all of these issues again 2 weeks ago, just got the tests back and I NO LONGER NEED ANY OF IT!!!!!!!! MY DOC APPROVES!!! HOW is that for a testimony?!?! Isagenix saved me!
