## Testimonial: Ange King

November 2009

January 2010

October 2010

My name is Ange King and I have a background in the Hospitality Industry. Having returned to South Africa after working in London in November 2009, I was desperate to shed the 'UK winter kilos' that had piled on over the last couple of months. I have always been a yo-yo dieter and battled to lose that last bit of 'extra' weight. I have also suffered all my life with constipation, fatigue and very low energy levels. I really struggled to keep up with the demanding working hours that the hotel industry is synonymous with. At the beginning of December 2009, I got onto the Herbalife products and was absolutely delighted at my immediate results. After 7 weeks, I managed to lose 8kgs and drop two pants sizes. My energy levels were through the roof and my spastic colon was a thing of the past. I have now lost 15kg. Thanks to Herbalife, I wake up every morning feeling fabulous and for the first time in a very long time look forward to the day ahead!
