

Testimonial - Alfa PXP Forte - Sores Healed in 60 Days

My Fibromyalgia & Depression

I started taking this product in July 2010 after my street minister friend David Scott told me about it. He said it would help me with energy. At that time I needed to keep 5 hour energy shots next to my bed just to be able to wake up and go to work. I just thought it was "getting old". Mornings were excruciating for me when my feet first hit the floor. First steps in the mornings were painful. I needed to hold the stair railing with BOTH hands to steady myself to walk down the stairs. I was also moderately depressed.

Back then I felt bad and was in pain about 30 days a month and felt ok or good just one day a month. I was too tired and depressed to even try to look good at the office. Half the time, I wouldn't even bother to put on make-up.

I decided to risk \$300 on a 90-day supply to see if it would help me. While \$300 was a lot of money, I figured the potential reward outweighed the risk. Boy, am I glad I did!

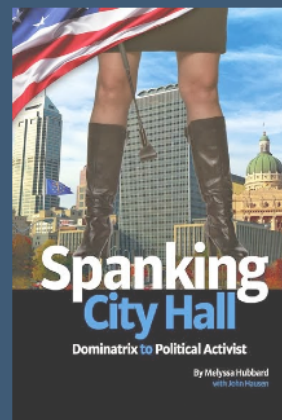

Within two months of taking two scoops daily of 100% organic Enzacta PXP Forte mixed with water, my symptoms were 90% diminished and my depression was resolved. My mental focus improved and my sales skyrocketed and my income doubled the next year. It's amazing how much better I was at my 100% commission job when I felt good. The age spots on my hands faded and I can barely see them anymore.

Two years later 100% of my pain is gone and I have no symptoms of depression. I cannot imagine the toll on me had I suffered more years with extreme fatigue, depression, and fibromyalgia pain.

I get regular updates on exciting stories from other Enzacta users who have seen reversal of diabetes, MS, allergies, migraines, high cholesterol, depression, and even cancer!

Am I getting younger?

Today I just take one scoop a day and feel better than I have since my early 30's.
