This product for me has been huge. I have had allergies since I was young and taking many of the off the counter drugs to help my red and running eyes and sinus problems, most of these occurred in the summer months. I have been taking the Noni Juice since day 1 in the business, and I can truly say that my days of the allergy problems with me are gone.

I love premium Noni Juice, I take comfort knowing that I am drinking something that is healthy for me and makes me feel good physically and mentally. It prepares me for the day ahead which is always changing.

I have some awesome friends that were concerned about me and my health. They were taking the Triangle of Life products – Noni, Trietin, and Cluster- and recommended that I start taking them. I listened but didn't do anything about it right away. One day I woke up and was so tired of going to the doctor just to have them keep giving me medicine but never feeling good. I decided that I needed to try something because not only was my health bad, but so was my outlook on life.

I started taking the Triangle of Life products and noticed that both my diabetes and blood pressure, which were high for two years, changed for the better. As my health continues to improve, so does my attitude and I feel like a brand new person. In fact, I went to California to visit my sister-in-law and she didn't recognize me. I have family and friends comment all the time on how good I look. I believe the products I'm taking are improving my health and my state of mind. I would highly recommend all of these products to feel better physically and mentally.
