## Welcome

We all know that living a healthy lifestyle is important. However, all too often a busy schedule prevents us from taking the additional care that we should. Combined with the fact that we are bombarded on a daily basis by information about what we should and shouldn't be eating, on websites, billboards, adverts and packaging...

Flavon Green

The newest innovation from Flavon is available now!

We all know that regular vegetable consumption has a beneficial effect on our general state of wellbeing - supplying us with essential nutrients, fibres and vitamins. However, only a few people consume the required daily amount. Even if we want to eat healthily, our hurried lifestyles do not allow us to consume enough raw or semi-cooked vegetables.

## Testimonials

"I have been suffering with Diabetes 2 for the past 5 years. I eat healthy vegetarian food but still found it difficult to control my diabetes. My friend recommended I try Flavon Green. I reluctantly agreed and started to eat it every day. I didn't notice any change in particular until I went to see my doctor for the quarterly check up. He was pleasantly surprised that my sugar level was normal and stable. I can confidently say that Flavon Green has had positive effect on my overall health and I would highly recommend it to anyone who wishes to improve their health in a natural way."

Indu - age 70  
Retired electrician, Norwich
