This is a marvelous product. Lifestyles has more than 45 products and are a stone lighter, without trying to lose weight, he feels In rude good health after all I could't possibly feel any worse and I'd got nothing to lose.

Ernest Swales,a 61-year old diabetic, also suffers from high blood pressure and arthritis, causing extreme pain and swelling in his hands and hip joints.

Last year his health deteriorated when he started to suffer from diabetes-related "gray" symptoms, facing at all time low, he confided in fellow diabetic, Littlet did he know the conversation would mark a turning point in his health. His friend suggested to try a natural herbal product that had worked wonders for her condition, helping to diabetics and her high blood pressure. "I thought I might try it, for all I couldn't possibly feel any worse and I'd got nothing to lose.

His herbal nutrition drink named Intra•, packaged In a white bottle contains work on the particular needs of each individual and is formulated by a chinese doctor. Four months later, his friends noticed his new found energy and zest for life. All his friends help lose his weight for the first time in 40 years. Mr. Swales' hands and hip joints has diminished and his own doctor has taken him off standard medication for high blood pressure.

Stone lighter, without trying to lose weight, he feels In rude good health. Ernest has shared the secrets of his Chinese remedy with many of his friends who all report a relief from a variety of other complaints, ranging from headaches to toothaches. He is convinced that his herbal complementary therapies could help a lot more sufferers like himself.

My name is Sue Wyse and I am 63 years old. In Sept 1998 I had a brain surgery. While in the hospital I started taking intra•. To my amazement, I no longer needed my medication for Asthma, or Arthritis. Also my head pain began to ease. Before leaving the hospital I developed a bowel disorder. I noticed my allergies are better and I have a lot more strength and stamina. I just feel better all over. Now when I get stressed I take more intra• and it keeps me from getting sick.

Intra• had help enhanced the health of many and is more nice now. I slept well, my eye vision improve at night. I Jump for Joy and said "Hey! this product had help work...

Without doubt, Intra• has swept the world and become an integral part of thousands of people's lives as a natural, effective, and safe alternative to conventional health remedies.
After 20 years of constant pain I underwent 3 knee surgery operations trying to find relief. But, even with heavy doses of Botox and numerous Cortisone shots the pain wouldn't go away. Then I tried intra" within 4 days the pain was reduced and within few weeks the constant swelling and pain were virtually gone.

Insulin Dependent Diabetic
I have been an insulin dependent diabetic for several years. I began taking intra" 8 months ago and for the last six months I have not needed insulin as my blood glucose has remained stable and a very low level.

- Gerald Hambling, Devon, UK

Migraine has been my problems for years. I started taking intra" 3 months ago and have not suffered an attack since. I have literally forgotten how painful my life used to be. My energy level has also improved. My 2 year old son had eczema on his arms and legs. It was severe that we thought he might even die from it. After taking just 1/2 oz of intra" each morning for just 2 weeks his eczema disappeared.

- Simon Letheris, Lancaster, UK

I have quite severe osteo Arthritis in the neck and spine and in the last 5 years my back has begun to experience pain in my joints. I was very skeptical that a subcutaneous drink could ever do anything for me. However after taking for only 4 weeks I no longer have pain in my spine, I am walking like a leg and seem to have boundless energy.

- Derek Bannerman, Sunny, UK

I couldn’t turn my head or reach out from my belly, I had terrible headaches and it was painful to walk due to my gait. Since being on intra" my blood sugar hasn’t risen above 120. I am not aware of being low. My headaches are gone and my blood pressure has reduced to normal range. My cholesterol has dropped from 189 to 174. I feel better then I have in years. I never want to be without intra".

- Helen Maksymiuk, Kansas, UT, USA

My daughter has suffered with chronic Plantar Fasciitis for 3 years with the need to visit a specialist every 2 weeks for bar bates and ultra sound treatment (excess with no improvement). This put a lot of stress on her (and us), she had to miss school, become withdrawn and began to overeat. After just 2 months on intra" some 16% of the Plantar Fasciitis had gone and she no longer needed expertise therapy and developed into her former self, even competing in school’s sports day running race more graceful than ever. My son’s sciatica had been a problem for years and with intra" his pain was taken away.

- Debra Munn, Sunny, UK

In July 1992 I became ill with the illness known as M.E. I had a variety of debilitating symptoms ranging from chronic headaches, memory loss, mood swings, dysphoria, distress, weakness and pain in muscles and joints. Thanks to nutritional therapy and complementary medicine, I started getting better in early 1993. In July 93 I was introduced to intra" and what a difference it made. After only two weeks I noticed a considerable difference in my energy and stamina levels. I found that I was sleeping better and the quality of sleep improved. Also the effect intra" had on me was greatly beneficial in terms of improving my health in general and my pain was reduced.

- Gay Irving, Somerset, UK

I’m from Jersey the Isle of Man. My father was 62 used to be a laborer his life was left in bed by 9:30pm up by 3:45 am to mend masts and off to his rubber plantation by motorbike. One morning I arrived at the house I noticed that his masts was still in the car. When I came to his room, I woke him up but I could hear his faint voice and did not move at all, he felt something was wrong, and immediately called his other brother he took an hour. We drove all the way to Hospital in Kuala Lumpur. He was admitted in late October. Three of the veins of the heart was blocked. Operation has to carry out on the seventh day. 2nd day, my brother fed me my first meal with intra". 3rd day, the collection bag with tube connected to stomach began to fill with krohrvitzler not really diluted blood. By 5th day, the collection bag was filled with clear liquid. The pulse reading is back to normal. The doctor was astonished by his condition and got him into exercise therapy. Reading taken again morning, afternoon and evening. At 7th day, the doctor discharged him. Before my family take him home, we told the doctors he’s taking intra".

- Wong, Jerantut, Malaysia

My 4 year old grand daughter Carol was anemic for almost one year plus. One day she called me "Mummy I can’t breath", that’s on Sunday evening in Jan 2003. I went straight to the clinic and took out the intra" and gave her 1/2 oz of a glass of plain water that evening, 2 days later on Tuesday while cleaning a gathering in my home, Carol started coughing out flames, 4th day evening she has a sweat night sleep. 5th day she’s running around getting more energetic. intra" had simply an amazing product that unmatch by any product in the market today.

- William Tech, F.I. Malaysia

Strachan Lupus Related
Eight years ago, was diagnosed as having six gouty and nine disabling ulcers. I was told by the hospital that would be on medication for the rest of my life. I started taking this herbal nutrition drink in February 1994 and after only 3 weeks I was feeling so well it was decided my medication was no longer required. I have not needed any medication since and I have no stomach problems whatsoever. I think its brilliant.

- Pat McSweeney, Kinn, Ireland

Three years ago I found myself under a great deal of stress. I had been suffering from high blood pressure for some years, but at that time doctor was very concerned that my medication would have to be increased. On one of my visits he was very impressed with the new treatment and in fact said: "Whatever you’re doing, it’s different, just keep doing it". It was only after I left the surgery that I realized the only thing I had been doing differently was taking a daily dose of my intra" herbal drink. I did test from progressive arterial arteries in my left leg for 15 years suffering a sports injury. Despite 2 operations, blood clots, infections etc., I told my doctor I would have to take anti-inflammatory tablets and pain killers for another 15 years as I was considered too young for an artificial knee. I was extremely skeptical that intra" could replace me because of so much pain. Thankfully I was seriously mistaken - after only 6 weeks the pain had diminished considerably and after just 3 months I could straighten my leg for the first time in years. Remarkably NO tablets for 2 1/2 years now and NO pain! - Jenny Beas, LA

Living Life to the Full after years of Depression & Hay fever
I have suffered from asthma and hay fever for 30 years. The summer time was just too much for me. I'd use aeroxy up my nose and spray in my ears, take antihistamines and use a lot of paper tissues. However the summer of 1992 was a different, because I was recommended this intra" herbal nutrition drink.

Within 2 weeks of taking it I no more allergy symptoms, asthma gone and remarkably after 30 years of misery I hadn’t had one attack to this day. An added bonus is the frequent headaches which used to plague me are now very few and far between. But for the most amazing result was after suffering serious depression on and off for the last 20 years, after 3 months of the taking intra" herbal nutrition drink gradually reduced and no longer needed all my anti depressants and sleeping tablets. I am back and the look of the day have fantastically energy levels, and feel tremendously positive. The intra" herbal nutrition drink will always be part of my daily life.

- Jill Hunt, London
