Now, she is cancer free

Wow, July, last year Ryce Vilbar Silvano, daughter of Jenalyn Vilbar Silvano, was declared dying by her doctors. She was undergoing chemotherapy due to her Langer Hans Hystocytosis which was detected when she was 2 years old. The doctors put her on different strong medications and 4 years chemotherapy. NOTHING HELPED. Then July 2014, I met Ryce and gave her a bottle of INTRA. She felt good. I invited her mother to our HOPE presentation. And the rest is history. After 49 days taking INTRA N NUTRIA, the doctors declared her cancer free. Thanks Lifestyles PH.
