

Homeschooling mom!

My husband and I were introduced to Melaleuca in October, 2011. The concept of “going green” or using eco friendly products had never crossed our minds as we always assumed they were too expensive and they did not work...that was before we were introduced to Melaleuca!! We opened our shopping account with a Career Pack so we could convert our entire house to safer and better products! The next month, we ordered another Value pack! Once we were educated about the toxins we had off gassing under our kitchen and bathroom sinks, we couldn’t get the UPS truck with our Melaleuca order here fast enough!!! What a delight to have my nine year old help me wipe down the sinks in the bathroom now, using the safe Tub and Tile! I never felt good about letting her do that before! I must say the most amazing little unexpected miracle happened just a day after we received our products in the mail. My husband has suffered from heart burn and acid reflux for over 20 years. The day after he took his first packet of the Vitality 6 vitamins for men, he noticed his heartburn was gone. He could not believe it! Neither could I. I was the one buying him large bottles of TUMS every week and we were just in awe! He intentionally began to consume, over the next few days, all the heartburn triggers like ice cream late at night, chili, tomato sauce and pasta, coffee...and not a hint of heartburn! I can say, Melaleuca has changed my husband’s life! Melaleuca will always be our favorite store to shop at! In addition, we love to share it with others! I don’t know where we would be today if our dear friend had not sat down with us and shared this company with us! We are so glad she did! Now we are doing that for others! My husband and I are Marketing Executives for Melaleuca and are introducing our new store to folks all around the US and Canada! Might we introduce YOU to this fine store?!!
