

User's Testimonials

HERE ARE FEEDBACKS FROM HAPPY USERS WHO HAVE USED NEFFUL PRODUCTS

First, please don't get the impressions that I am doing marketing for Nefful. Even though it is a direct selling company, I didn't join it. What I am going to tell you will make you say, "Really? That guy is simply doing marketing job for Nefful" or "Yes, he just fake the whole thing up. I am putting it down here because I want people especially those with diabetes to benefit from the wonderful effect of Tevions clothing made by Nefful. If there is something that money can buy to lessen the pains suffered by diabetics, then this is the product to go for.

I am as skeptical and weary as you when I first get to know Nefful's products. How can it be possible by wearing something on your skin, you can get cured for your illness. Well, Tevions clothing prove this impossible statement to be true. It works on the principle of ion charge generation when the material are being rubbed together. As it has been established that when Tevions material rubbed with our skin, an abundance of negative ions charge are being generated. This negative ions is being used to remove our toxins in our body. Ever wonder why you feel so fresh and rejuvenating when you are in the forest or near waterfall? It is simply due to the same negative ions that present there. So by using this principle, Nefful creates Tevions clothing to heal our body by removing the toxins with negative ions.

If you strain your ankle, by wearing the Tevions socks 24 hours a day, you can feel the relief in as short as 3 days. For diabetics or family with a diabetic, you will know how difficult it is to heal any bruises or cuts suffered around the ankles. Again, by wearing Tevions socks, it can speed up your healing process. Just remember to change your pair of socks everyday as the material had adsorbed all the toxins in it and need to be washed and removed in order for it to function again.

I wonder why this great invention is not available to everyone of us especially those with diabetes. Modern medicine hasn't found a cure for diabetics and facing great difficulties in healing the cuts and bruises they suffered. Why not try Nefful for a change? You will never know the joys it can bring to your love one. Of course, other than cuts, bruises or muscle strain, it is effective for treating sinus, improving weight or removing tumors but that will be on another review if I decided to write one

NEFFUL INDEPT. DISTRIBUTOR (SINGAPORE)

Hi, myname is Jenny Lim. Thank you for visiting. Health is like money, we never have a true idea of its value until we lose it. If money can help buy good health will you be curious to find out what this clothing is about? I like to quote Dr Noboru Horiguchi what he wrote "Why do we get sick? The cause of diseases lies inside the cells of our body. No matter how much medicine and nutrients are given to it. A sick body whose illness comes from damaged cells cannot recover even if very expensive drugs, good nutrients, and the best medical care are administered. The sick body cannot escape from the progression of the illness to death. Therefore I realized the necessity of curing the roots, namely the cells in human beings. With energetic cells, human bodies also become healthy enough to block disease or even cure them."

Text/whatsapp me at: 8182 3325 if you have any query or you like to arrange an appointment to know more. If you need more info to read please simply send an email or call me. I will send it to you.
