DASH Health and Wellness added 2 new photos. August 28, 2015 · 🌐

I have someone very close to me that has struggled with terrible adult acne for the last 15 years spending Thousands with no real results! These pictures are 19 days, the first day with M1 anti-aging system by Mōdere and day 19! You don't know me, but I Do Not back a brand unless I would bet every dollar I have on it! This is personal to me as I'm very close to the owners/ creators of this brand and I've traveled the country speaking to women that feel they have to hide behind their make up (I have been one myself) as not to show the "flaws" beneath! I truly have a passion for helping people and seeing tears of joy and relief from the women (and men and teens) I've been able to bring this to! It's currently set to ship to customers in mid to late September, please take the time to read about it if you or anyone you know has suffered like this sweet, Amazing woman partially pictured!
