Pain Relief Without a Prescription with L'Bri's SuperAloe

If you have ever experienced joint pain from arthritis, then you know what I have felt this weekend. Even simple tasks that required the use of my hands were difficult and painful. I saw a friend who is an Occupational Therapist (OT) and she massaged my thumb joints, used BioFreeze gel, used UltraSound therapy, and Laser therapy. I've been wearing thumb splints to help restrict the thumb joint movements. Still pain.

Today as I tried to return to normal, I thought about the SuperAloe sitting in my room, and decided to give it a try. Everything else by L'Bri has worked great, so I wasn't really very surprised when I had such a great response to the cream. I had tried it before for some chronic low back pain and it worked wonderfully. When I started working with a trainer at the local YMCA, I used it to relieve my severe muscle pain. but I didn't think I would get such a wonderful and quick response on my very sore thumb joints. I thought "only a prescription will take care of this. I'll probably need some cortisone injections". Thankfully, the SuperAloe has done the trick.

SuperAloe provides **four active ingredients** plus Aloe. It also has **10 other natural ingredients**. Other typical over the counter cream pain relievers contain only one or two active ingredients (like a form of Aspirin). SuperAloe contains the **active ingredients**: Methyl Salicylate (10%), Lidocaine Hydrochloride (1% topical), Menthol (3%) and Capsaicin Frutescens Oleoresin (0.025%). Additionally it contains the **natural ingredients**: Aloe Vera which helps to drive the pain fighting ingredients deep beneath the skin layers; Eucalyptus Globulus Leaf Oil; Glucosamine Sulfate Sodium; Bisabolol and Ginger Root Extract; Methylsulfonyl Methane (MSM); and Arnica Montana Flower Extract.

Individually each ingredient has properties to fight pain and heal. When placed together these ingredients become even more effective. To learn more about this wonderful pain relieving cream, visit my website <http://www.jfletcher.lbri.com/> or go to <http://www.superaloe.com/>.

A few things to know about SuperAloe:

- Use only as directed
- Apply not more than 3 to 4 times per day
- For external use only
- Consult a physician first if you are prone to allergic reactions
- Do not use if you have a shellfish allergy**
- Be sure to wash your hands after applying SuperAloe and avoid contact with your eyes.

SuperAloe can be used for:

- Arthritis pain
- Back pain
- Joint pain
- Knee pain
- Neck pain
- Shoulder pain
- Muscle pain/strain
- Bruises
- Tendonitis
- Overuse pain from workouts

There are many wonderful testimonials on the SuperAloe website. I would even suggest trying this if you suffer from neuropathy and can't find anything to work. It's worth a try!

I'd love to hear your success story.

About Me

Jan

I am a daughter, sister, aunt, mom, and grandma. A Physician Assistant in Neurology, a skin care consultant, an entrepreneur. I love working with people to help them feel good about themselves both physically and mentally. I am so excited to have found a skin care company that uses natural aloe-based products and am having so much fun sharing it with others.
