I get asked ALL the time... "how come Shakeology isn't available in vanilla? The other "healthy" shakes from "other" companies have vanilla". We all know that shakeo is THE best on the market for this reason.... ALL ingredients in all flavors of shakeo are completely natural. NO artificial ingredients what so ever! Not only does it have all the essential vitamins, nutrients, probiotics, prebiotics, OMEGA-3's and 70 super foods, it also aids in digestion problems, fighting disease, lower cholesterol & blood pressure, diabetes, increasing your thyroid production, reducing [ADD/ADHD](#) symptoms, detoxing your system, and ON and ON!

So, back to vanilla..... how do the others get the "vanilla" flavor in those "other" shakes? By adding artificial ingredients and chemical such as...

- Silicone Dioxide (you know, silica gel that comes in those little packets with your shoes that says "do not eat/digest")
- GMO's (pesticides that are sprayed on foods at harvest)
- Propylene Glycol (same chemical used in engine coolants and antifreeze, airplane de-icers, polyurethane cushions, paints, enamels and varnishes)

AND, what make's matters worse is the FDA is allowing this! I'm sorry, but I refuse ABSOLUTELY REFUSE to give my girls a vanilla flavored shake that has man made chemicals that cause:

- bronchitis
- Cancer
- Spleen, kidney, liver, heart, adrenal gland, skin, and blood flow damage

So, am I super excited about Shakeology offering a vanilla flavor now? You're flippin' right I am! It includes all the awesome ingredients that all the other flavors of Shakeo have, but now includes the PUREST Madagascar vanilla bean. NO FAKE vanilla flavor!

Check out the video below to see how great this new addition truly is!
