Intestinal Cancer & Colostomy

June 2010 diagnosed with Stage 4 Intestinal Cancer. My Oncologist gave me 12 months to live.

October 2010 underwent operation to remove 8 inches of intestine and did a colostomy.

Post-operation blood test showed high possibility of cancer returning.

Started consuming Seven+ in January 2011. In March 2011 did 2nd post-operation blood test and Oncologist confirmed health level of a 50 year old.

October 2011, Colostomy removed & Oncologist confirmed, I'm free from cancer.
