It's a blustery day here today but we're warm and cozy inside and we have Breathe Deep in our diffuser. It smells wonderful and it helps us breathe better!

Breathe Deep is a blend for helping to relieve respiratory congestion and fight respiratory infections. Dilute with massage or carrier oil and apply to temples, forehead, chest and back for sinus problems, bronchitis, pneumonia and asthma. It can also be massaged on the throat for sore throats.

Warnings: If you have asthma, try a small amount first to see if you tolerate the blend well before using.

The above is taken from the book The Comprehensive Guide to Nature's Sunshine Products by Steven Horne and Kimberly Balas
