Kati tells how she and her husband started giving Limu to their precious 5 month old baby boy after NOTHING ELSE had worked! Look how beautiful his skin is now!! His mom had just changed him before we shot this video, and we didn't think about it, but he does have his diaper on!! However without his shirt you can really see how clear his skin is!! Thrilled for this little baby and his family!

my niece was started on Limu and she has very bad bow movements and she gets stopped up but Limu works great with that. I also have a hard time with bow movements but Limu works great with that.
