Do Sugar Blockers Really Work

Morinda Bioactives has brought out an amazing product called *TruAge Sugar Stop* (in America,) and in Australia, *TruAge Body Conquer*. They are the same product but in Australia natural products are not allowed to have what their function written on their labels, especially in the name – it is considered making a claim for health purposes which is illegal. (eg. years ago an Eagle product was called Stresso B because it helped control stress but they were made to change it to Tresos B, which is its name today).

Weight Management

TruAge Body Conquer (Sugar Stop) is making inroads into individuals' excess weight problem. Have a look at this short video to see the results for one man.

How TruAge Conquer (Sugar Stop) Helps The Body

TruAge Conquer (Sugar Stop) helps reduce your body's absorption of sugar and starch before they're stored in the body as fat or AGEs. Because of this, it works to help you reach and main-

ROD AND MELANIE ALFRED, MILLIONAIRE CLUB MORINDA BIOACTIVISTS

tain a healthy weight, while also helping you manage your AGE levels.

Obviously a healthy diet of vegetables, and fruits, appropriate fats and proteins with lots of water is necessary for appropriate weight loss, but [TruAge Body Conquer \(Sugar Stop\)](#) helps the process along and in some cases at an amazing rate.

To use [TruAge Conquer \(Sugar Stop\)](#) you just add one scoop (supplied in the bottle) to 10 fl. oz. (300 ml) of water and mix well. Drink once daily with your largest meal of the day. There are 15 serves in one bottle, so two bottles are required for the month.

Ingredients

[TruAge Body Conquer \(Sugar Stop\)](#) contains Inulin, wheat fiber, psyllium husk fiber, white kidney bean extract and barley. The wheat and barley content make this product unsuitable for coeliacs.

One of the two major ingredients is *Inulin* which is a soluble fibre and is considered a pre-biotic as it promotes the growth of beneficial intestinal bacteria. *Inulin* is suitable for diabetics and has the potential to help blood sugar related conditions.

The second major ingredient, *white bean extract* can prevent alpha-amylase (an enzyme that occurs naturally in the body) from breaking down carbohydrates into glucose [sugar]). By slowing up alpha-amylase activity, it appears that *white bean extract* leaves behind less glucose for the body to turn into fat. *White bean extract* is said to keep blood sugar in check, fight insulin resistance, protect against diabetes and heart disease, enhance athletic performance, increase energy, ease symptoms of arthritis, and aid in the prevention of colon cancer.

When you add the far reaching benefits of the noni fruit to these two substances, then the results are amazing.

Other ingredients in [TruAge Body Conquer \(Body Stop\)](#) include maltodextrin, mango fruit powder, citric acid, carrot vegetable powder, stevia leaf extract, noni fruit pulp, medium chain triglycerides, natural flavour, beta carotene.

Buying TruAge Body Conquer (Sugar Stop)

The best way of purchasing [TruAge Body Conquer \(Sugar Stop\)](#) is in a [TruAge Body Pack with either TruAge Max](#) beverage (2 pack) or with the [TruAge Original \(Tahitian Noni™ Juice\)](#). These packs can be purchased any time.

The [TruAge Body Conquer \(Sugar Stop\)](#) can be purchased as a stand alone product only during the last week of the month as a two pack (one month's supply) or a four pack (two months supply).

The benefit of purchasing the [TruAge Body Conquer \(Sugar Stop\)](#) from Morinda is that there is 100% money back guarantee on your first purchase (excluding postage). To try it [click here](#).
