so happy with this pan!!

great, high quality, heavyweight pan that makes crisp-crust pizza! My first try I took my pizza fresh out of the oven to my book club party and everyone loved the pizza but surprisingly people were saying that it was such a great pan - and I believe it is very substantial!! (the pizza I refer to was made from scratch, not re-heated): but I have also used this pan to re-heat. so I have to give this a 5!

Pros - Bakeware Shape, Quality, Durable, Easy to Use, Easy to Store, Weight, Easy to Clean

Yes, I recommend this product.

Perfect crust every time

Really like this crisper. Always perfect on the bottom, never burns, easy clean up and finish holding up well so far. No problems with warping. It does scratch on the bottom like all the Gold Touch finish does but results above average. Far superior to anything else I have tried. Previously purchased the rectangular pan, round cake pans in same finish and have never been disappointed.

Pros: Easy to Clean, Easy to Use, Quality

Yes, I recommend this product.

NO more soggy crusts! LOVE THIS!

This makes the best pizza crusts. Cleans very easily. I slide the finished pizza off to an old cookie sheet to cut the pizza. I never cut on this pizza pan. It is great. (I have started buying a pizza crust mix to speed up the process and it is still very yummy.) Buy two if you need two pizzas. I tried to make just one work, but it lengthens the process too much. Worth the extra money!

Pros: Durable, Easy to Use, Quality, Time-saver, Easy to Clean, Easy to Store, Size, Design

Yes, I recommend this product.

Inferior Quality

I own other Goldtouch pans, and have been so happy with the quality and performance. On the strength of my experience with them, and the high reviews, I ordered this for my pizza-loving husband for Christmas. When it arrived, I was immediately skeptical because its weight was significantly less than my other pieces, but kept it to gift him hoping it would perform fine. We have used it for the first time, with a frozen pizza, and the pan warped alarmingly--not just a little, enough to cause slippage and run-off of toppings and sauce, which resulted in a mess in the oven. The crust was good, and the clean-up was excellent. We're going to try again, hoping it won't be repeated. But for the price, this should have performed much better.

Pros: Easy to Clean

Cons: Quality, Weight, warps a lot

No, I do not recommend this product.

You will never go out for pizza again

I had other pans and a stone, but could never make a decent, let alone good, pizza until I bought this. The crust gets crispy and you don't have to partially bake the crust first as with some other pans. I have made all kinds of pizza and have used my leftovers creatively. The pizza doesn't stick to the pan. I slide it out onto my stone and cut it on there, so as not to damage the finish of this pan. I have recommended it to everyone and am going to buy it for bridal shower gifts as well.

Pros: Durable, Easy to Use, Quality, Easy to Clean, Easy to Store, Design

Cons: will scratch if you use a pizza cutter on it

Yes, I recommend this product.

Nice Crisp Crust

No soggy crust with this pizza pan. The only reason I didn't give it five stars is because all my other Goldtouch bakeware is made in the USA but the Pizza Crisper is not made in the USA.

Pros: Easy to Use, Time-saver, Easy to Clean, Easy to Store, Design

Cons: not made in the usa

Yes, I recommend this product.

AMAZING pizza crisper

I have been looking for a good pizza pan for a long time and have been unsuccessful including a pizza stone that wasn't any better. All of the pans I have been using the pizza comes out soggy with no crisp what so ever. After reading the reviews on this pan I went to my local Williams and Sonoma store and purchased two, I was being optimistic based on all the great reviews. I'm so glad I did. I went home to test out my new pans and the pizza was perfect and crispy just the way it's supposed to be. My kids 4 & 9 thought the pizza was way better then eating out. FINALLY, my search for a pizza pan is over. Thank you Williams and Sonoma.

Pros: Durable, Easy to Use, Accuracy, Quality, Easy to Clean, Easy to Store, Size, Versatile, Design, Weight

Yes, I recommend this product.

Uses product: **A few times a year**

This is WAYYY easier, AND better results than a pizza stone. It's a snap to roll out the dough, place it on the perforated pan, choose your toppings, and bake. The crust came out perfectly, and crisp, and the pizza slid off the pan without a hitch. Why didn't anybody tell me sooner about these pans? Cleanup was simple, since nothing stuck or baked on to the pan. I'm going to buy two more!

Pros: Durable, Easy to Use, Quality, Easy to Clean, Easy to Store, Size, Design, Weight

Yes, I recommend this product.
