OK, but not the best

I purchased these because I have a lot of goldtouch baking pans and love them. I have 3 of these cooling racks and they are just OK. I prefer a heavy duty cooling rack, and these are pretty lightweight. I keep them stacked and stored on top of my goldtouch half-sheet pans, and they have unfortunately left scratches in the pans that go through the nonstick gold coating. My dish towels always snag when drying them as well. I plan to purchase the steel ones that are available on this site, and probably won't use these ones much any more. They work for their intended purpose, but they just aren't what I was looking for.

Cons: Difficult to Clean, Weight

No, I do not recommend this product.

Drains fried food

This rack works well for the use I bought it for. I like to make fried chicken and pork cutlets as well as tempura. This rack over a cookie sheet provides an excellent way to drain excess oil.

Pros: Easy to Use, Easy to Clean, Durable, Versatile, Design, Quality, Size, Weight, Easy to Store, Shape

Yes, I recommend this product.

I bought this to make my annual prime rib each year and it makes a perfect fit for the rib roast. This fits into the full size pan . Also I use it as a cookie rack. This item has a dual purpose .

Pros: Easy to Use, Easy to Clean, Durable, Size

Yes, I recommend this product.

Too lightweight

I generally love the quality of the Goldtouch products. This rack is functional to cool cookies, cakes and muffins, but it is surprisingly lightweight and thinly wired. It is not very non-stick, so not too versatile to use for any oven roasting or heavy item use. I bought on sale, otherwise I would be disappointed by its limited use ability. There are other cooling racks available with excellent non-stick and heavy cooking versatility for the same price range that would be a better purchase.

Pros: nice gold color

Cons: Quality, Difficult to Clean, Weight

No, I do not recommend this product.

Only two would do

This cooling rack is probably the most used item in my kitchen. Actually I have two and couldn't do my baking without them. I love the gold color. One will hold a dozen and a half muffins easily.

I sent an email with a picture of something I had baked to my sister and she wrote back asking where I got my cooling rack. I would say that's high praise for this rack.

Pros: Durable, Easy to Use, Quality, Size, Design

Yes, I recommend this product.

Great Racks

I love these high quality cooling racks. I completed my set of four when there was free shipping. I bake and cool my cookies on baking parchment. It is easy to slide the sheet off the baking pan and onto the rack. If I ever needed more racks I wouldn't consider any other kind.

Pros: Durable, Easy to Use, Quality, Size, Design, Weight

Yes, I recommend this product.

Not really nonstick

I used this product side by side with my regular cooling rack, and they had the same amount of crumbs after I picked up the cakes. I would say this is just the same as a regular cooling rack.

No, I do not recommend this product.
