Product description

Traditional peoples, Native Americans and early ancestral healers knew that eating the organs from a healthy animal would strengthen and support the health of the corresponding organ of the individual. For instance, the traditional way of treating a person with a weak heart was to feed the person the heart of a healthy animal. Similarly, eating the kidneys of a healthy animal was believed to support urinary ailments and overall kidney health... Pancreas was fed to people with pancreatic and digestive problems... and brain was consumed to support brain, mood and memory. *

Question: I have been advised by my doctor to consume 1-2oz of animal brain per week. How many capsules of this would be roughly equal to that amount?

Answer: I can't answer that specifically but I will say you'd be making the right choice using these products from Ancestral Supplements. GREAT PRODUCT

February 15, 2018

Verified Purchase

I sleep so much better with this product. In addition, my thoughts are not running through my mind like a pack of wild horses. In addition, this changes my mood to wanting to get things done--like getting rid of the clutter and not having story around keeping stuff I no longer need, want, or can buy again. The pleasant space this provides for my head is the beautiful space I'm creating in my home

No more brain fog. Better recall. Motivation to organize.

January 29, 2018

Verified Purchase

So I'm about three weeks into the brain supplement and I notice more clarity and no brain-fog. Here's the crazy thing. I am the first born of parents who immigrated after WWII from the former Yugoslavia. My father was a pilot in The Royal Yugoslav Air Force, captured and spent the entire war in a German POW camp. After coming to the US he corresponded with my mom to be, then brought her over here, married her and boom, I happened. My parents have been gone for well over 20 years now and I have over 200 letters from their correspondence with each other and family members. Since I retired over two years ago I was meaning to try to read these letters and organize them. A daunting task trying to read various peoples handwriting by fountain pen on see through paper. But after taking the brain supplement I finally felt like doing it. I feel like I could recall so much more of the Serbian language and that really surprised me. I also got ready for my tax appointment without the dread I usually have about doing the paperwork. It's a subtle change but definitely a helpful one.

Highly Recommended

January 29, 2018

I bought the beef brain along with the bone marrow, as the latter was recommended by a friend. Well, they both began working almost immediately. I noticed at the end of day 3 that I was in a far better mood than usual for no reason, which is bizarre considering I'm treated for depression. I'm also recalling things better and with ease. Both the bone marrow and beef brain have already helped me in noticeable ways a week in. I highly recommend Ancestral.

Improved Body AND Mental Focus

January 24, 2018

Verified Purchase

It worked... it worked... it worked!

Pursuing a graduate degree, studying abroad and managing a career tends to take its toll on one's health; mine included. My energy, digestion, heart resilience, sleep, joints and focus are not what they used to be. I chalked it up to stress, busy life, poor nutrition and the inevitable father time.

My brother, who is a Primal Certified Health Coach and total nutrition addict, convinced me to just try the Ancestral Supplements line. We started with the Pancreas and Spleen to support my digestive health... it worked! We added the Heart to support my palpitations... it worked (not perfect but 80% better; I'll take it)! We added the Trachea for the nagging joint issues... it worked! Finally, we added Brain for the sleep and focus... it worked too! In full transparency, I've also started wearing the UVEX glasses 2 hours before going to bed as well as taking 400 mg of magnesium per evening. Couldn't be happier!

Let food be thy medicine!

Glandular therapy works!!!

February 14, 2018

Verified Purchase

I treat hundreds of patients (human, canine & feline) through a holistic/homeopathic protocol. All healing starts with diet... PURE glandular is food! Pure glandular works along the same thought process as homeopathy "like cures like" ...science proves herbs are significantly more taxing on the system to all species/patients I treat. Science also proves that when you (or your pet) have a compromised organ, consuming that same organ from another species naturally heals (detox, regeneration, supplemental support) ...the proteins & nutrients from the consumed organ find their way to same identifying organ in our bodies. PURE GLANDULAR WORKS!!! It's so simple & so easy that it's almost too good to be true!

I buy AS brain & heart for my mom. She had a TIA/stroke last year. We started her in half dose of each. She increased faster than I told her to & dealt with detox symptoms such as increased itching. (She's also a type 2 diabetic who does not manage her diabetes & on synthroid for her thyroid) says to self: baby steps, baby steps, lol

Anyways, once we got over that hurdle and she finally started seeing memory/cognitive/multitasking ability improvement! Glandular therapy takes 6 weeks on full dosing to see diagnostic improvement. The

Seems pricey, but it's worth it to have your mind back.

June 20, 2018

I think it works. My wife, and I have noticed a difference in how much more clear headed we both are. Well, it was either this or the fact that we stopped smoking PCP, but who knows?! GIVE IT A SHOT! Okay, listen I'm just kidding about the PCP. But seriously, this product will work for you. If I could shift gears, and just describe how much of an impact this has had on our lives, my wife is shooting quips at people all the time now, and she used to complain about how she could only think of stuff after the fact. I'm writing again, and it's going better than it probably ever has. At least I don't get frustrated, or need to grab the thesaurus every 5 minutes. We were both pretty skeptical. Even after we'd been taking it for a week or so,

but after about two weeks the difference was obvious. I'm telling all my friends about it, and they say it's the first time they've ever heard me actually like something. I don't know what they're talking about. I guess they're all rotten friends, but this stuff helps, man. My brain feels twentysomething, and in a good way.
